This material is being purchased for:

Prior to use, how is this material being stored?

How is the material introduced into the Customer's process equipment?

How often is this transfer performed?

Does any sampling or testing of the material occur at the Customer's facility?

How often does sampling occur?

How many persons work in the area where the material is handled?

Which types of personal protective equipment are required when this material is handled? Please check all that apply.

- | | | | | | |
|------------------|-----------------------|---------------------------|-----------------------|------------------------|-----------------------|
| Safety Glasses | <input type="radio"/> | Steel-Toed Shoes | <input type="radio"/> | Respirator | <input type="radio"/> |
| Chemical Goggles | <input type="radio"/> | Chemical Resistant Gloves | <input type="radio"/> | Hearing Protection | <input type="radio"/> |
| Splash Shield | <input type="radio"/> | Outer Garment / Nomex | <input type="radio"/> | No Protection Required | <input type="radio"/> |
| Hard Hat | <input type="radio"/> | Personal Exposure Monitor | <input type="radio"/> | Other | <input type="text"/> |

Are any of the following environmental control devices in use? Please check all that apply.

- | | | | | | |
|--------------------------|-----------------------|----------------|-----------------------|----------|-----------------------|
| Gas Blanketed Tanks | <input type="radio"/> | Relief Devices | <input type="radio"/> | Pavement | <input type="radio"/> |
| Effluent Treatment Plant | <input type="radio"/> | Rupture Discs | <input type="radio"/> | Concrete | <input type="radio"/> |
| Spill Response Plan | <input type="radio"/> | Dikes | <input type="radio"/> | None | <input type="radio"/> |

Which term best describes the end-use product?

Which term best describes the stability of the end-use product?

List the products that Customer's facility produces using the material (include CAS number when possible):

How much (approximately) of the material is present in the Customer's final product?
(Customer's SDS for their product may provide an estimate)

What is the largest known market for the Customer's end product?

What application best describes the primary function the material has for the Customer?

*Note: If 'Other' is chosen for Market or Application, please provide additional information in the space below.

Please use this section to communicate any relevant information to Chevron Phillips Chemical Company:
