SAFETY DATA SHEET

Tertiary Butyl Mercaptan

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1

Product information

Product Name: Tertiary Butyl Mercaptan
Material: 1069500, 1086416, 1086415, 1070007, 1064730, 1021473, 1021470, 1017940, 1036143, 1024807, 1021472, 1021471, 1024806, 1021469, 1028495, 1021474, 1027458, 1029711, 1017329, 1021468

### SECTION 2: Hazards identification

#### 2.1 Classification of the substance or mixture  
**REGULATION (EC) No 1272/2008**

- Flammable liquids, Category 2  
  H225: Highly flammable liquid and vapor.
- Short-term (acute) aquatic hazard, Category 2  
  H401: Toxic to aquatic life.
- Skin sensitization, Category 1  
  H317: May cause an allergic skin reaction.
- Long-term (chronic) aquatic hazard, Category 2  
  H411: Toxic to aquatic life with long lasting effects.

#### 2.2 Labeling (REGULATION (EC) No 1272/2008)

**Hazard pictograms:**

![Danger Symbol](image)

**Signal Word:** Danger

**Hazard Statements:**

- H225: Highly flammable liquid and vapor.
- H317: May cause an allergic skin reaction.
- H411: Toxic to aquatic life with long lasting effects.

**Precautionary Statements:**

- **Prevention:**
  - P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
  - P233: Keep container tightly closed.
  - P273: Avoid release to the environment.
  - P280: Wear protective gloves/ protective clothing/

**SDS Number:** 100000013356  
**2/27**
SAFETY DATA SHEET

Tertiary Butyl Mercaptan

Version 1.6

Revision Date: 2019-05-14

Response:

P370 + P378
P391

In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.
Collect spillage.

Eye protection/ face protection.

Hazardous ingredients which must be listed on the label:

- 75-66-1 t-Butyl Mercaptan

SECTION 3: Composition/information on ingredients

3.1 - 3.2 Substance or Mixture

Synonyms:

- tert-Butanethiol
- 2-Methyl Propane-2-Thiol
- TBM
- TC4SH
- tert-Butyl Mercaptan

Molecular formula: C4H10S

Hazardous ingredients

SECTION 4: First aid measures

4.1 Description of first-aid measures

General advice:

Move out of dangerous area. Show this material safety data sheet to the doctor in attendance. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.

If inhaled:

If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.

In case of skin contact:

If on skin, rinse well with water. If on clothes, remove clothes.

In case of eye contact:

Flush eyes with water as a precaution. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

If swallowed:

Keep respiratory tract clear. Never give anything by mouth to
## Tertiary Butyl Mercaptan

#### 5.1 Extinguishing media

- Suitable extinguishing media: Alcohol-resistant foam. Carbon dioxide (CO2). Dry chemical.
- Unsuitable extinguishing media: High volume water jet.

#### 5.2 Special hazards arising from the substance or mixture

**Specific hazards during firefighting:** Do not allow run-off from fire fighting to enter drains or water courses.

#### 5.3 Advice for firefighters

- Special protective equipment for fire-fighters: Wear self-contained breathing apparatus for firefighting if necessary.
- Further information: Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.

- Fire and explosion protection: Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

---

### SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

- Personal precautions: Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

#### 6.2 Environmental precautions

---

**SDS Number:** 100000013356

**4/27**
Environmental precautions: Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

6.3 Methods and materials for containment and cleaning up
Methods for cleaning up: Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

6.4 Reference to other sections
Reference to other sections: For personal protection see section 8. For disposal considerations see section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling
Handling
Advice on safe handling: Avoid formation of aerosol. Do not breathe vapors/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations. Persons susceptible to skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.

Advice on protection against fire and explosion: Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

7.2 Conditions for safe storage, including any incompatibilities
Storage
Requirements for storage areas and containers: No smoking. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

SECTION 8: Exposure controls/personal protection

8.2
Exposure controls
Engineering measures

Adequate ventilation to control airborne concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

Respiratory protection : Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as: Air-Purifying Respirator for Organic Vapors. Organic Vapor Cartridges. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

Hand protection : The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection : Eye wash bottle with pure water. Tightly fitting safety goggles.

Skin and body protection : Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate: . Remove and wash contaminated clothing before re-use. Skin should be washed after contact. Footwear protecting against chemicals.

Hygiene measures : When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

For additional details, see the Exposure Scenario in the Annex portion

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance
Form : Liquid
Physical state : Liquid
Color : clear
Odor : Repulsive

### SECTION 10: Stability and reactivity

#### 10.1 Reactivity

Reactivity : Stable under recommended storage conditions.

#### 10.2 Chemical stability

Chemical stability : This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

#### 10.3

SDS Number: 100000013356  8/27
Tertiary Butyl Mercaptan

Possibility of hazardous reactions

Hazardous reactions: Hazardous reactions: Hazardous polymerization does not occur.

Further information: No decomposition if stored and applied as directed.

Hazardous reactions: Vapors may form explosive mixture with air.

10.4 Conditions to avoid

Heat, flames and sparks.

10.6 Hazardous decomposition products

Carbon oxides
Sulfur oxides

Other data: No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute oral toxicity

t-Butyl Mercaptan: LD50: 4.729 mg/kg
Species: Rat
Sex: male

Acute inhalation toxicity

t-Butyl Mercaptan: LC50: 98.3 mg/l
Exposure time: 4 h
Species: Rat
Sex: male and female
Test atmosphere: vapor
Method: OECD Test Guideline 403

LC50: 81.9 mg/l
Exposure time: 4 h
Species: Rat
Sex: male
Test atmosphere: vapor
Method: OECD Test Guideline 403

LC50: 60.9 mg/l
Exposure time: 4 h
Species: Mouse
Sex: male
Test atmosphere: vapor
Method: OECD Test Guideline 403

Skin irritation
t-Butyl Mercaptan : No skin irritation

**Eye irritation**
t-Butyl Mercaptan : slight irritation. Information given is based on data obtained from similar substances.

**Sensitization**
t-Butyl Mercaptan : May cause sensitization by skin contact.

**Repeated dose toxicity**
t-Butyl Mercaptan :
Species: Rat, Male and female
Sex: Male and female
Application Route: Inhalation
Dose: 9, 97, 196 ppm
Exposure time: 13 wks
Number of exposures: 6 hrs/d, 5 d/wk
NOEL: > 196 ppm

Species: Rat, Male and female
Sex: Male and female
Application Route: oral gavage
Dose: 10, 50, 200 mg/kg bw/day
Exposure time: 42-53 days
Number of exposures: Daily
NOEL: 50 mg/kg bw/day
Lowest observable effect level: 200 mg/kg bw/day
Method: OECD Guideline 422

Species: Rat, Male and female
Sex: Male and female
Application Route: Inhalation
Dose: 25.1, 99.6, 403.4 ppm
Exposure time: 13 wks
Number of exposures: 6 hrs/d, 5 d/wk
NOEL: 99.6 ppm
Lowest observable effect level: 403.4 ppm
Method: OECD Guideline 413
Target Organs: Liver, Kidney, Blood, Upper respiratory tract
Information given is based on data obtained from similar substances.

**Genotoxicity in vitro**
t-Butyl Mercaptan :
Test Type: Mouse lymphoma assay
Metabolic activation: with and without metabolic activation
Result: negative

Test Type: Sister Chromatid Exchange Assay
Metabolic activation: with and without metabolic activation
Result: negative

Test Type: Ames test
Metabolic activation: with and without metabolic activation
Result: negative
# Tertiary Butyl Mercaptan

## Genotoxicity in vivo

**t-Butyl Mercaptan**
- **Test Type:** Mouse micronucleus assay
- **Species:** Mouse
- **Dose:** 1250, 2500, 5000 mg/kg
- **Method:** Mutagenicity (micronucleus test)
- **Result:** negative

## Reproductive toxicity

**t-Butyl Mercaptan**
- **Species:** Rat
- **Sex:** male and female
- **Application Route:** oral gavage
- **Dose:** 10, 50, 200 mg/kg bw/day
- **Number of exposures:** Daily
- **Test period:** 42 - 53 days
- **Method:** OECD Guideline 422
- **NOAEL Parent:** 200 mg/kg bw/day
- **NOAEL F1:** 50 mg/kg bw/day
- **No adverse effects expected**

## Developmental Toxicity

**t-Butyl Mercaptan**
- **Species:** Mouse
- **Application Route:** Inhalation
- **Dose:** 11, 99, 195 ppm
- **Exposure time:** GD 6-16
- **Number of exposures:** 6 hrs/d
- **NOAEL Teratogenicity:** ≥ 195 ppm
- **NOAEL Maternal:** ≥ 195 ppm

Species: Rat
- **Application Route:** Inhalation
- **Dose:** 11, 99, 195 ppm
- **Exposure time:** GD6-19
- **Number of exposures:** 6 hrs/d
- **NOAEL Teratogenicity:** ≥ 195 ppm
- **NOAEL Maternal:** ≥ 195 ppm

Species: Rat
- **Application Route:** oral gavage
- **Dose:** 10, 50, 200 mg/kg bw/day
- **Exposure time:** 42-53 days
- **Number of exposures:** Daily
- **NOAEL Teratogenicity:** 50 mg/kg bw /day
- **NOAEL Maternal:** 200 mg/kg bw /day

## Tertiary Butyl Mercaptan Aspiration toxicity

**t-Butyl Mercaptan**
- May be harmful if swallowed and enters airways.

## CMR effects

**t-Butyl Mercaptan**
- **Carcinogenicity:** Not available
- **Mutagenicity:** Did not show mutagenic effects in animal experiments.
- **Teratogenicity:** Did not show teratogenic effects in animal experiments.
- **Reproductive toxicity:** No toxicity to reproduction

---

SDS Number: 100000013356 11/27
**Tertiary Butyl Mercaptan**

**Further information**: Symptoms of overexposure are dizziness, headache, tiredness, nausea, unconsciousness, cessation of breathing. Solvents may degrease the skin.

### SECTION 12: Ecological information

#### 12.1 Toxicity

**Toxicity to fish**

- **t-Butyl Mercaptan**
  - LC50: 34 mg/l
  - Exposure time: 96 h
  - Species: Oncorhynchus mykiss (rainbow trout)
  - semi-static test Method: OECD Test Guideline 203

**Toxicity to daphnia and other aquatic invertebrates**

- **t-Butyl Mercaptan**
  - EC50: 6.7 mg/l
  - Exposure time: 48 h
  - Species: Daphnia magna (Water flea)
  - static test Method: OECD Test Guideline 202

**Toxicity to algae**

- **t-Butyl Mercaptan**
  - EC50: 24 mg/l
  - Exposure time: 72 h
  - Species: Pseudokirchneriella subcapitata (green algae)
  - Method: OECD Test Guideline 201

#### 12.2 Persistence and degradability

**Biodegradability**

- **t-Butyl Mercaptan**: aerobic
  - Result: Not readily biodegradable.
  - 6%
  - Testing period: 63 d
  - Method: OECD Test Guideline 301

#### 12.3 Bioaccumulative potential

**Bioaccumulation**

- **t-Butyl Mercaptan**: Bioconcentration factor (BCF): 12
  - Bioaccumulation is unlikely.

#### 12.4 Mobility in soil

**Mobility**

SDS Number: 100000013356 12/27
t-Butyl Mercaptan: The product will be dispersed amongst the various environmental compartments (soil/ water/ air).

12.5 Results of PBT and vPvB assessment
Results of PBT assessment: This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

12.6 Other adverse effects
Additional ecological information: Toxic to aquatic life with long lasting effects.

Ecotoxicology Assessment

Short-term (acute) aquatic hazard
t-Butyl Mercaptan: Toxic to aquatic life.

Long-term (chronic) aquatic hazard
t-Butyl Mercaptan: Toxic to aquatic life with long lasting effects.

SECTION 13: Disposal considerations

13.1 Waste treatment methods
The information in this SDS pertains only to the product as shipped.
Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product: The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

Contaminated packaging: Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.

For additional details, see the Exposure Scenario in the Annex portion

SECTION 14: Transport information

14.1 - 14.7 Transport information
The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.). Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the
bill of lading.

**US DOT (UNITED STATES DEPARTMENT OF TRANSPORTATION)**

#### Other given operational conditions affecting environmental exposure

| Number of emission days per year | 365 |
| Emission or Release Factor: Water | 0 % |
| Emission or Release Factor: Soil | 0.01 % |
| Remarks                        | Emission or Release Factor: Air: < 0.001 % |

#### Technical conditions and measures / Organizational measures

**Air**

- Treat air emission to provide the required removal efficiency of (%): (Effectiveness: > 99.9 %)
- **Remarks**: Wastewater emission controls are not applicable as there is no direct release to wastewater.
- **Remarks**: Prevent environmental discharge consistent with regulatory requirements.
Conditions and measures related to municipal sewage treatment plant
Flow rate of sewage treatment plant effluent: 2.000 m³/d
Remarks: Not applicable as there is no release to wastewater.

Conditions and measures related to external treatment of waste for disposal
Waste treatment: External treatment and disposal of waste should comply with applicable local and/or national regulations.

Conditions and measures related to external recovery of waste
Recovery Methods: External recovery and recycling of waste should comply with applicable local and/or national regulations.

2.2 Contributing scenario controlling worker exposure for: PROC1, PROC3, PROC8b, PROC15: Use in closed process, no likelihood of exposure, Use in closed batch process (synthesis or formulation), Transfer of substance or preparation (charging/discharging) from/to vessels/large containers at dedicated facilities, Use as laboratory reagent

Organizational measures to prevent/limit releases, dispersion and exposure
Avoid direct skin contact with product. Identify potential areas for indirect skin contact. Wear gloves (tested to EN374) if hand contact with substance likely. Clean up contamination/spills as soon as they occur. Wash off any skin contamination immediately. Provide basic employee training to prevent/minimise exposures and to report any skin problems that may develop.

Conditions and measures related to personal protection, hygiene and health evaluation
Wear suitable gloves tested to EN374.

3. Exposure estimation and reference to its source

ERC1: Manufacture of substances
ERC4: Industrial use of processing aids in processes and products, not becoming part of articles

4. Guidance to Downstream User to evaluate whether he works inside the boundaries set by the Exposure Scenario

RMMs and OCs are described in adequate documentation at site level and efficiency is checked on a regular basis. When the recommended risk management measures (RMMs) and operational conditions (OCs) are observed, exposures are not expected to exceed the predicted PNECs and the resulting risk characterization ratios are expected to be less than 1.

1. Short title of Exposure Scenario: Distribution
