# SAFETY DATA SHEET

## Dimethyl Sulfide

### Version 1.3

Revision Date 2019-09-30

according to GB/T 16483 and GB/T 17519

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### Product information

<table>

### SECTION 2: Hazards identification

#### Classification of the substance or mixture
**Dimethyl Sulfide**

**GHS Classification and Labeling:** Follow GB 13690, GB 15258 and GB 30000.2 to GB 30000.29 (GHS 2011)

**Emergency Overview**

**Danger**

**Form:** Liquid  
**Physical state:** Liquid  
**Color:** Clear  
**Odor:** Repulsive  
**Hazards:** Highly flammable liquid and vapor. Causes eye irritation. May be harmful if swallowed and enters airways. Harmful to aquatic life.

**Classification**

- Flammable liquids, Category 2  
- Serious eye damage/eye irritation, Category 2B  
- Aspiration hazard, Category 2  
- Short-term (acute) aquatic hazard, Category 3

**Labeling**

**Symbol(s):**

- ![Flammable](image)
- ![Eye Irritation](image)

**Signal Word:** Danger

**Hazard Statements:**

- H225: Highly flammable liquid and vapor.  
- H305: May be harmful if swallowed and enters airways.  
- H320: Causes eye irritation.  
- H402: Harmful to aquatic life.

**Precautionary Statements:**

**Prevention:**

- P210: Keep away from heat/sparks/open flames/hot surfaces. No smoking.  
- P233: Keep container tightly closed.  
- P240: Ground/bond container and receiving equipment.  
- P241: Use explosion-proof electrical/ventilating/lighting/equipment.  
- P242: Use only non-sparking tools.  
- P243: Take precautionary measures against static discharge.  
- P264: Wash skin thoroughly after handling.  
- P273: Avoid release to the environment.  
- P280: Wear protective gloves/eye protection/face protection.

**Response:**

- P301 + P310: IF SWALLOWED: Immediately call a POISON CENTER/doctor.  
- P303 + P361 + P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.  
- P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
- P331: Do NOT induce vomiting.  
- P337 + P313: If eye irritation persists: Get medical advice/attention.  
- P370 + P378: In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.
SAFETY DATA SHEET

Dimethyl Sulfide

Storage:
P403 + P235: Store in a well-ventilated place. Keep cool.
P405: Store locked up.

Disposal:
P501: Dispose of contents/ container to an approved waste disposal plant.

SECTION 3: Composition/information on ingredients

Synonyms:
Dimethyl Sulfide Pure
Methyl sulfide
DMS
Di-Methyl Sulfide

Molecular formula: C2H6S

SECTION 4: First aid measures

General advice: Move out of dangerous area. Show this material safety data sheet to the doctor in attendance. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.

If inhaled: If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.

In case of skin contact: If on skin, rinse well with water. If on clothes, remove clothes.

In case of eye contact: Flush eyes with water as a precaution. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

If swallowed: Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.

SECTION 5: Firefighting measures

Flash point: -37 °C (-35 °F) estimated

Autoignition temperature: 220 °C (428 °F)

Suitable extinguishing media: Alcohol-resistant foam. Carbon dioxide (CO2). Dry chemical.

Unsuitable extinguishing media: High volume water jet.

SDS Number: 100000013358
SAFETY DATA SHEET

Dimethyl Sulfide

Version 1.3

Revision Date 2019-09-30

media

Specific hazards during fire fighting : Do not allow run-off from fire fighting to enter drains or water courses.

Special protective equipment for fire-fighters : Wear self-contained breathing apparatus for firefighting if necessary.

Further information : Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.

Fire and explosion protection : Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

Hazardous decomposition products : Carbon oxides. Sulfur oxides.

SECTION 6: Accidental release measures

Personal precautions : Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

Environmental precautions : Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

Methods for cleaning up : Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

SECTION 7: Handling and storage

Handling

Advice on safe handling : Avoid formation of aerosol. Do not breathe vapors/dust. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.

Advice on protection against fire and explosion : Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames.
hot surfaces and sources of ignition.

Storage

Requirements for storage areas and containers: No smoking. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

Use: Intermediate

SECTION 8: Exposure controls/personal protection

Not applicable

Engineering measures

Adequate ventilation to control airborne concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the workplace when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

Respiratory protection: Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as: Air-Purifying Respirator for Organic Vapors. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

Hand protection: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection: Eye wash bottle with pure water. Tightly fitting safety goggles.

Skin and body protection: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate: Flame retardant antistatic protective clothing. Workers should wear antistatic footwear.

Hygiene measures: When using do not eat or drink. When using do not smoke.
## Dimethyl Sulfide

**Version 1.3**  
Revision Date: 2019-09-30

Wash hands before breaks and at the end of workday.

### SECTION 9: Physical and chemical properties

#### Information on basic physical and chemical properties

**Appearance**
- Form: Liquid
- Physical state: Liquid
- Color: Clear
- Odor: Repulsive

**Safety data**
- Flash point: -37 °C (-35 °F) estimated
- Lower explosion limit: 2.2 % (V)
- Upper explosion limit: 19.7 % (V)
- Oxidizing properties: Yes
- Autoignition temperature: 220 °C (428 °F)
- Molecular formula: C2H6S
- Molecular weight: 62.14 g/mol
- pH: Not applicable
- Pour point: No data available
- Boiling point/boiling range: 37 °C (99 °F)
- Vapor pressure: 15.00 PSI at 38 °C (100 °F)
- Relative density: 0.85 at 15.6 °C (60.1 °F)
- Water solubility: 7,280 MG/L at 20 °C (68 °F)
- Partition coefficient: n-octanol/water: log Pow: 0.84 at 20 °C (68 °F)
- Solubility in other solvents: Medium: Water slightly soluble
- Viscosity, kinematic: 0.285 cSt at 20 °C (68 °F)
- Relative vapor density: 2.1 (Air = 1.0)
- Evaporation rate: No data available

**SDS Number:** 100000013358

6/12
Dimethyl Sulfide

Version 1.3

Percent volatile: > 99 %

SECTION 10: Stability and reactivity

Reactivity: Stable under recommended storage conditions.

Chemical stability: This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

Possibility of hazardous reactions

Hazardous reactions: Hazardous polymerization does not occur.

Further information: No decomposition if stored and applied as directed.

Hazardous reactions: Vapors may form explosive mixture with air.

Conditions to avoid: Heat, flames and sparks.

Materials to avoid: May react with oxygen and strong oxidizing agents, such as chlorates, nitrates, peroxides, etc.

Hazardous decomposition products: Carbon oxides, Sulfur oxides

Other data: No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

Acute oral toxicity
Dimethyl Sulfide: LD50: > 2,000 mg/kg
Species: Rat
Method: OECD Test Guideline 423

Acute inhalation toxicity
Dimethyl Sulfide: LC50: 102 mg/l
Exposure time: 4 h
Species: Rat
Sex: male and female
Test atmosphere: gas
Method: OECD Test Guideline 403

Acute dermal toxicity
## Dimethyl Sulfide

**Version 1.3**

### LD50

**Dimethyl Sulfide:**  
LD50: > 2,000 mg/kg  
Method: OECD Test Guideline 402

### Skin irritation

**Dimethyl Sulfide:**  
No skin irritation

### Eye irritation

**Dimethyl Sulfide:**  
May irritate eyes.

### Sensitization

**Dimethyl Sulfide:**  
Did not cause sensitization on laboratory animals.

### Repeated dose toxicity

**Dimethyl Sulfide:**  
Species: Rat, Male and female  
Sex: Male and female  
Application Route: Oral diet  
Dose: 0, 2.5, 25, 250 mg/kg bw/day  
Exposure time: 14 wk  
Number of exposures: daily  
NOEL: 250 mg/kg  
Method: OECD Test Guideline 408  
No adverse effects expected

**Species: Rat, Male and female  
Sex: Male and female  
Application Route: Inhalation (vapor)  
Dose: 0, 0.310, 0.964, 2.783 mg/l  
Exposure time: 13 wk (6 h)  
Number of exposures: 7 d/wk  
NOEL: 2.783 mg/l  
Method: OECD Guideline 413  
Information given is based on data obtained from similar substances.

### Genotoxicity in vitro

**Dimethyl Sulfide:**  
Test Type: Ames test  
Metabolic activation: with and without metabolic activation  
Method: OECD Test Guideline 471  
Result: negative

Test Type: Mouse lymphoma assay  
Metabolic activation: with and without metabolic activation  
Method: OECD Guideline 476  
Result: negative

### Genotoxicity in vivo

**Dimethyl Sulfide:**  
Test Type: In vivo micronucleus test  
Species: Mouse  
Cell type: Bone marrow  
Route of Application: Oral  
Dose: 1250, 2500, 5000 mg/kg  
Method: OECD Test Guideline 474
Dimethyl Sulfide

Result: negative

Developmental Toxicity
Dimethyl Sulfide : Species: Rat
Application Route: oral gavage
Dose: 100, 500, 1000 mg/kg
Exposure time: GD 6 - 19
Number of exposures: daily
Test period: 20 d
Method: OECD Guideline 414
NOAEL Teratogenicity: 1,000 mg/kg
NOAEL Maternal: 1,000 mg/kg

Dimethyl Sulfide Aspiration toxicity : May be harmful if swallowed and enters airways.

CMR effects
Dimethyl Sulfide : Carcinogenicity: Not available
Mutagenicity: Tests on bacterial or mammalian cell cultures did not show mutagenic effects., In vivo tests did not show mutagenic effects
Teratogenicity: Animal testing did not show any effects on fetal development.
Reproductive toxicity: Animal testing did not show any effects on fertility.

Dimethyl Sulfide Further information : Solvents may degrease the skin.

SECTION 12: Ecological information

Toxicity to fish
Dimethyl Sulfide : LC50: 213 mg/l
Exposure time: 96 h
Species: Oncorhynchus mykiss (rainbow trout)
Method: OECD Test Guideline 203

Toxicity to daphnia and other aquatic invertebrates
Dimethyl Sulfide : EC50: 29 mg/l
Exposure time: 48 h
Species: Daphnia magna (Water flea)
static test Method: OECD Test Guideline 202

Toxicity to algae
Dimethyl Sulfide : IC50: > 113.7 mg/l
Exposure time: 72 h
Species: Selenastrum capricornutum (algae)
Method: OECD Test Guideline 201

SDS Number:100000013358
Biodegradability

Dimethyl Sulfide : aerobic
Result: Readily biodegradable.
77 %
Method: OECD Test Guideline 301

Results of PBT assessment

Dimethyl Sulfide : Non-classified PBT substance, Non-classified vPvB substance

Additional ecological information:

Ecotoxicology Assessment

Short-term (acute) aquatic hazard
Dimethyl Sulfide : Harmful to aquatic life.

SECTION 13: Disposal considerations

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product : The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

Contaminated packaging : Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.

SECTION 14: Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

SECTION 15: Regulatory information

Classification and Labeling of Commonly Used Dangerous Chemical Substances: Primary label: Combustible Liquid.

Notification status
Europe REACH: On the inventory, or in compliance with the inventory
United States of America (USA) TSCA: On the inventory, or in compliance with the inventory
Canada DSL: On the inventory, or in compliance with the inventory
Australia AICS: On the inventory, or in compliance with the inventory
New Zealand NZIoC: On the inventory, or in compliance with the inventory
Japan ENCS: On the inventory, or in compliance with the inventory
Korea KECI: A substance(s) in this product was not registered, notified to be registered, or exempted from registration by CPChem according to K-REACH regulations. Importation or manufacture of this product is still permitted provided the Korean Importer of Record has themselves notified the substance.

Philippines PICCS: On the inventory, or in compliance with the inventory
China IECSC: On the inventory, or in compliance with the inventory

Other regulations: Law on the Prevention and Control of Occupational Diseases
SECTION 16: Other information

Further information

Legacy SDS Number : 61250

Local emergency contact number: 0532-83889090

Significant changes since the last version are highlighted in the margin. This version replaces all previous versions.

The information in this SDS pertains only to the product as shipped.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
