
SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1

Product Information

Product Name: Diethyl Sulfide
Material: 1017947, 1024545, 1024826

EC-No. Registration number

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>CAS-No. EC-No. Index No.</th>
<th>Legal Entity Registration number</th>
</tr>
</thead>
</table>

1.2

Relevant identified uses of the substance or mixture and uses advised against

Relevant Identified Uses Supported: Intermediate: The substance is registered as a Transported Isolated Intermediate with Strictly Controlled Conditions (SCC) defined in Article 18(4) of Regulation EC No. 1907/2006 and must therefore be handled as such.

1.3

Details of the supplier of the safety data sheet

Company: Chevron Phillips Chemical Company LP
Specialty Chemicals
10001 Six Pines Drive
The Woodlands, TX 77380

Local: Chevron Phillips Chemicals International N.V.
Airport Plaza (Stockholm Building)
Leonardo Da Vinciyaan 19
1831 Diegem
Belgium

SDS Requests: (800) 852-5530
Technical Information: (832) 813-4862
Responsible Party: Product Safety Group
Email:sds@cpchem.com

SDS Number:100000014109
SAFETY DATA SHEET
Diethyl Sulfide
Version 2.1
Revision Date 2018-11-14

1.4 Emergency telephone:

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
REGULATION (EC) No 1272/2008

Flammable liquids, Category 2
Eye irritation, Category 2
Long-term (chronic) aquatic hazard, Category 3

H225: Highly flammable liquid and vapor.
H319: Causes serious eye irritation.
H412: Harmful to aquatic life with long lasting effects.

2.2 Labeling (REGULATION (EC) No 1272/2008)

Hazard pictograms: 

Signal Word: Danger

Hazard Statements: 
H225 Highly flammable liquid and vapor.
H319 Causes serious eye irritation.
H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements: 
Prevention:
P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P233 Keep container tightly closed.
P273 Avoid release to the environment.
P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.

Response:
P370 + P378 In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.
Diethyl Sulfide

SECTION 3: Composition/information on ingredients

For the full text of the H-Statements mentioned in this Section, see Section 16.

SECTION 4: First aid measures

4.1 Description of first-aid measures

General advice: Move out of dangerous area. Show this material safety data sheet to the doctor in attendance. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.

If inhaled: If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.

In case of skin contact: If on skin, rinse well with water. If on clothes, remove clothes.

In case of eye contact: Immediately flush eye(s) with plenty of water. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

If swallowed: Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.

SECTION 5: Firefighting measures

Flash point: -10 - -4 °C (14 - 25 °F) at 100.4 kPa

Autoignition temperature: 189 - 199 °C (372 - 390 °F)
Diethyl Sulfide

5.1 Extinguishing media

Suitable extinguishing media: Alcohol-resistant foam. Carbon dioxide (CO2). Dry chemical.

Unsuitable extinguishing media: High volume water jet.

5.2 Special hazards arising from the substance or mixture

Specific hazards during fire fighting: Do not allow run-off from fire fighting to enter drains or water courses.

5.3 Advice for firefighters

Special protective equipment for fire-fighters: Wear self-contained breathing apparatus for firefighting if necessary.

Further information: Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.

Fire and explosion protection: Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

Hazardous decomposition products: Carbon oxides. Sulfur oxides.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions: Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

6.2 Environmental precautions

Environmental precautions: Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

6.3 Methods and materials for containment and cleaning up

Methods for cleaning up: Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to...
Diethyl Sulfide

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Handling

Advice on safe handling : Avoid formation of aerosol. Do not breathe vapors/dust. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.

Advice on protection against fire and explosion : Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

7.2 Conditions for safe storage, including any incompatibilities

Storage

Requirements for storage areas and containers : No smoking. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

SECTION 8: Exposure controls/personal protection

8.2 Exposure controls

Engineering measures

Adequate ventilation to control airborne concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment
Respiratory protection: Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as: Air-Purifying Respirator for Organic Vapors. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

Hand protection: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection: Eye wash bottle with pure water. Tightly fitting safety goggles.

Skin and body protection: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate: Flame retardant antistatic protective clothing. Workers should wear antistatic footwear.

Hygiene measures: When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

In case of an accident during maintenance/cleaning, this substance must be handled under Strictly Controlled Conditions (SCC) in accordance with REACH regulation Article 18(4) for transported isolated intermediates.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance
Form: Liquid
Physical state: Liquid
Color: Clear
Odor: Pungent, garlic-like

Safety data
Flash point: -10 - -4 °C (14 - 25 °F) at 100,4 kPa
Lower explosion limit: No data available
Upper explosion limit: No data available
Oxidizing properties: No
Autoignition temperature: 189 - 199 °C (372 - 390 °F)

SDS Number:100000014109 6/15
Diethyl Sulfide

Molecular formula: C4H10S
Molecular weight: 90,2 g/mol
pH: No data available
Pour point: No data available
Melting point/range:
-103,9 °C (-155,0 °F)
at 103,25 hPa
Boiling point/boiling range: 92,1 °C (197,8 °F)
Vapor pressure: 10,00 kPa
at 30,3 °C (86,5 °F)
Density: 0,84 g/cm³
at 20 °C (68 °F)
Water solubility: 3,07 g/l
at 25 °C (77 °F)
Partition coefficient: n-octanol/water: log Pow: 1,95
Solubility in other solvents: Negligible
Viscosity, dynamic: 0,422 mPa.s
at 20 °C (68 °F)
Relative vapor density: 3,1
(Air = 1.0)
Evaporation rate: No data available
Percent volatile: > 99 %

SECTION 10: Stability and reactivity

10.1 Reactivity: Stable under recommended storage conditions.

10.2 Chemical stability: This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
Diethyl Sulfide

Possibility of hazardous reactions

Hazardous reactions: Hazardous reactions: Hazardous polymerization does not occur.

Further information: No decomposition if stored and applied as directed.

Hazardous reactions: Vapors may form explosive mixture with air.

10.4 Conditions to avoid: Heat, flames and sparks.

Thermal decomposition: No data available

10.6 Hazardous decomposition products: Carbon oxides
Sulfur oxides

Other data: No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute oral toxicity
Diethyl Sulfide: LD50: > 5,000 mg/kg
Species: Rat
Sex: male and female
Method: OECD Test Guideline 401
Information given is based on data obtained from similar substances.

Acute inhalation toxicity
Diethyl Sulfide: LC50: 102 mg/l
Exposure time: 4 h
Species: Rat
Sex: male and female
Test atmosphere: vapor
Method: OECD Test Guideline 403
Information given is based on data obtained from similar substances.

Acute dermal toxicity
Diethyl Sulfide: LD50: > 2,000 mg/kg
Sex: male and female
Method: OECD Test Guideline 402
Information given is based on data obtained from similar substances.
### Skin irritation

Diethyl Sulfide: Mild skin irritation  
Information given is based on data obtained from similar substances.

### Eye irritation

Diethyl Sulfide: Eye irritation  
Information given is based on data obtained from similar substances.

### Sensitization

Diethyl Sulfide: Does not cause skin sensitization.  
Information given is based on data obtained from similar substances.

### Repeated dose toxicity

Diethyl Sulfide:
- **Species:** Rat, male and female  
- **Sex:** male and female  
- **Application Route:** oral gavage  
- **Dose:** 0, 2.5, 25, 250 mg/kg/bw/d  
- **Exposure time:** 14 wk  
- **Number of exposures:** 7 d/wk  
- **Method:** OECD Guideline 408  
- **Result:** No adverse effects expected  
Information given is based on data obtained from similar substances.

### Genotoxicity in vitro

Diethyl Sulfide:
- **Test Type:** Ames test  
- **Metabolic activation:** with and without metabolic activation  
- **Method:** OECD Test Guideline 471  
- **Result:** negative  
- **Remarks:** Information given is based on data obtained from similar substances.

- **Test Type:** Ames test  
  **Metabolic activation:** with and without metabolic activation  
  **Method:** OECD Test Guideline 471  
  **Result:** negative  
  **Remarks:** Information given is based on data obtained from similar substances.

- **Test Type:** Chromosome aberration test in vitro  
  **Metabolic activation:** with and without metabolic activation  
  **Method:** OECD Guideline 473  
  **Result:** negative  
  **Remarks:** Information given is based on data obtained from similar substances.

- **Test Type:** Mouse lymphoma assay  
  **Metabolic activation:** with and without metabolic activation  
  **Method:** OECD Guideline 476  
  **Result:** negative  
  **Remarks:** Information given is based on data obtained from similar substances.
Genotoxicity in vivo
Diethyl Sulfide :
Test Type: In vivo micronucleus test
Species: Mouse
Cell type: Bone marrow
Route of Application: Oral
Method: OECD Test Guideline 474
Result: negative
Remarks: Information given is based on data obtained from similar substances.

Developmental Toxicity
Diethyl Sulfide :
Species: Rat
Application Route: oral gavage
Dose: 100, 500, 1000 mg/kg/d
Exposure time: GD 6 - 19
Number of exposures: Daily
Test period: 20 d
Method: OECD Guideline 414
NOAEL Teratogenicity: 1.000 mg/kg
NOAEL Maternal: 1.000 mg/kg
No adverse effects expected
Information given is based on data obtained from similar substances.

Diethyl Sulfide
Aspiration toxicity :
May be harmful if swallowed and enters airways.

CMR effects
Diethyl Sulfide :
Carcinogenicity: Not available
Mutagenicity: Tests on bacterial or mammalian cell cultures did not show mutagenic effects. In vivo tests did not show mutagenic effects
Teratogenicity: Animal testing did not show any effects on fetal development.
Reproductive toxicity: Not available

Diethyl Sulfide
Further information :
Solvents may degrease the skin.

SECTION 12: Ecological information

12.1 Toxicity

Toxicity to fish
Diethyl Sulfide :
LC50: > 49.8 mg/l
Exposure time: 96 h
Species: Danio rerio (Zebra Fish)
semi-static test Method: OECD Test Guideline 203
Information given is based on data obtained from similar substances.
Diethyl Sulfide

Toxicity to daphnia and other aquatic invertebrates

Diethyl Sulfide:  
- EC50: 16 mg/l  
- Exposure time: 48 h  
- Species: Daphnia magna (Water flea)  
- static test  
Information given is based on data obtained from similar substances.

Toxicity to algae

Diethyl Sulfide:  
- EC50: > 59.3 mg/l  
- Exposure time: 72 h  
- Species: Pseudokirchneriella subcapitata (green algae)  
- Method: OECD Test Guideline 201  
Information given is based on data obtained from similar substances.

M-Factor  
- diethyl sulphide:  
  - M-Factor (Acute Aquat. Tox.) 1  
  - M-Factor (Chron. Aquat. Tox.) 1  

Toxicity to bacteria

Diethyl Sulfide:  
- EC50: > 1.000 mg/l  
- Exposure time: 3 h  
- Respiration inhibition  
- Method: OECD Test Guideline 209

12.2 Persistence and degradability

Biodegradability  
- Diethyl Sulfide:  
  - aerobic  
  - Result: Not readily biodegradable.  
  - 41%  
  - Testing period: 28 d  
  - Method: OECD Test Guideline 301D  
Information given is based on data obtained from similar substances.

12.3 Bioaccumulative potential

Bioaccumulation  
- Diethyl Sulfide:  
  - This material is not expected to bioaccumulate.

12.4 Mobility in soil

Mobility  
- Diethyl Sulfide:  
  - No data available
12.5 Results of PBT and vPvB assessment
Results of PBT assessment: This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

12.6 Other adverse effects
Additional ecological information:
Ecotoxicology Assessment

Short-term (acute) aquatic hazard
Diethyl Sulfide: Harmful to aquatic life.

Long-term (chronic) aquatic hazard
Diethyl Sulfide: Harmful to aquatic life with long lasting effects.

SECTION 13: Disposal considerations

13.1 Waste treatment methods
The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product: The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

Contaminated packaging: Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.

SECTION 14: Transport information

14.1 - 14.7 Transport information
The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.
SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
National legislation
