SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product information

Product Name: SCENTINEL® N Gas Odorant
Material: 1120698, 1120697, 1120696, 1119303, 1116175, 1099837, 1027464, 1024680, 1024681, 1024683, 1027463, 1024682

Use: Odorant

Company: Chevron Phillips Chemical Company LP
Specialty Chemicals
10001 Six Pines Drive
The Woodlands, TX 77380

ODOR-FADE WARNING

A GAS LEAK CAN CAUSE A FIRE OR EXPLOSION RESULTING IN SERIOUS INJURY OR DEATH.

Be aware that the stenching chemical added to gas to make it detectable may not warn of a gas leak or the presence of propane or natural gas to all persons in every instance.

Instances where the odorant in an odorized gas may be undetectable include:

• Odor intensity may fade or be eliminated for a variety of chemical and physical causes, including the oxidation of rusting pipes, adsorption into or sticking onto the interior of pipes or appliances, or absorption into liquids.
• Contact with soil in underground leaks may de-odorize or remove odorant from the gas.
• Some people have a diminished ability, or inability to smell the stench. Factors that negatively
affect a person's sense of smell include age, gender, medical conditions, and alcohol/tobacco usage.

- The stench of odorized gas may not awaken sleeping persons.
- Other odors may mask or hide the stench.
- Exposure to the odor for even a short period of time, may cause nasal fatigue, where a person can no longer smell the stench.

Gas detectors listed by the Underwriters Laboratories (UL) can be used as an extra measure of safety for detecting gas leaks, especially under conditions where the odorant alone may not provide an adequate warning. Gas detectors emit a loud, shrill sound when gas is present and do not depend on sense of smell. Because the odor intensity can fade or people may have problems with their sense of smell, we recommend installing, per manufacturer's instructions, one or more combustible gas detectors, in suitable locations to ensure adequate coverage to detect gas leaks.

Educate yourself, your employees, and your customers with the content of this warning and other important facts associated with the so-called "odor-fade phenomenon."

SECTION 2: Hazards identification

Classification of the substance or mixture
This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.

Classification:
- Flammable liquids, Category 2
- Skin sensitization, Category 1

Labeling:

Symbol(s):

Signal Word: Danger

Hazard Statements:
- H225: Highly flammable liquid and vapor.
- H317: May cause an allergic skin reaction.

Precautionary Statements:

**Prevention:**
- P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.
- P233 Keep container tightly closed.
- P240 Ground/bond container and receiving equipment.
- P241 Use explosion-proof electrical/ ventilating/ lighting/ equipment.
- P242 Use only non-sparking tools.
- P243 Take precautionary measures against static discharge.
- P261 Avoid breathing dust/fume/gas/mist/vapors/spray.
- P280 Wear protective gloves/ eye protection/ face protection.

**Response:**
- P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
- P333 + P313 If skin irritation or rash occurs: Get medical advice/ attention.
- P363 Wash contaminated clothing before reuse.
- P370 + P378 In case of fire: Use dry sand, dry chemical or
alcohol-resistant foam to extinguish.

**Storage:**
P403 + P235 Store in a well-ventilated place. Keep cool.

**Disposal:**
P501 Dispose of contents/ container to an approved waste disposal plant.

**Carcinogenicity:**
- **IARC**
  No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
- **NTP**
  No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

**SECTION 3: Composition/information on ingredients**

**Synonyms:**
- Scentinel® N-4 Gas Odorant
- Mercaptan Mixture
- Gas Odorant

**Molecular formula:**
- Mixture

**SECTION 4: First aid measures**

**General advice:**
Move out of dangerous area. Show this material safety data sheet to the doctor in attendance. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.

**If inhaled:**
If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.

**In case of skin contact:**
If on skin, rinse well with water. If on clothes, remove clothes.

**In case of eye contact:**
Flush eyes with water as a precaution. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

**If swallowed:**
Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.

**SECTION 5: Firefighting measures**

**Flash point:**
-18 °C (0 °F)
SAFETY DATA SHEET

SCENTINEL® N Gas Odorant

Version 2.0  Revision Date 2018-04-19

Autoignition temperature: No data available

Suitable extinguishing media: Alcohol-resistant foam. Carbon dioxide (CO2). Dry chemical.

Unsuitable extinguishing media: High volume water jet.

Specific hazards during fire fighting: Do not allow run-off from fire fighting to enter drains or water courses.

Special protective equipment for fire-fighters: Wear self-contained breathing apparatus for firefighting if necessary.

Further information: Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.

Fire and explosion protection: Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

Hazardous decomposition products: Carbon oxides. Sulfur oxides.

SECTION 6: Accidental release measures

Personal precautions: Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

Environmental precautions: Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

Methods for cleaning up: Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

SECTION 7: Handling and storage

Handling

Advice on safe handling: Avoid formation of aerosol. Do not breathe vapors/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see

SDS Number:100000014161  4/17
section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations. Persons susceptible to skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.

Advice on protection against fire and explosion: Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

Storage

Requirements for storage areas and containers: No smoking. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

Hazardous components without workplace control parameters

Engineering measures

Adequate ventilation to control airborne concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

Respiratory protection: Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as:. Full-Face Air-Purifying Respirator for Organic Vapors, Dusts and Mists. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled
release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

Hand protection: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection: Eye wash bottle with pure water. Tightly fitting safety goggles.

Skin and body protection: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate: Remove and wash contaminated clothing before re-use. Skin should be washed after contact. Footwear protecting against chemicals.

Hygiene measures: When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

**Appearance**
- Form: Liquid
- Physical state: Liquid
- Color: Clear
- Odor: Repulsive

**Safety data**
- Flash point: -18 °C (0 °F) estimated
- Lower explosion limit: No data available
- Upper explosion limit: No data available
- Oxidizing properties: No
- Autoignition temperature: No data available
- Molecular formula: Mixture
- Molecular weight: Not applicable
- pH: Not applicable
- Freezing point: No data available
- Pour point: No data available

SDS Number: 100000014161
SAFETY DATA SHEET

SCENTINEL® N Gas Odorant

Boiling point/boiling range : 58.3 - 70 °C (136.9 - 158 °F)
Vapor pressure : 6.80 PSI at 38 °C (100 °F)
Relative density : 0.81 at 15.6 °C (60.1 °F), estimated
Density : 810.1 g/l
Water solubility : Slightly soluble
Partition coefficient: n-octanol/water : No data available
Viscosity, kinematic : No data available
Relative vapor density : 1 (Air = 1.0)
Evaporation rate : > 1 (N-Butyl Acetate = 1)
Percent volatile : > 99 %

SECTION 10: Stability and reactivity

Chemical stability : This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

Possibility of hazardous reactions
Conditions to avoid : Heat, flames and sparks.
Hazardous decomposition products : Carbon oxides, Sulfur oxides
Other data : No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

SCENTINEL® N Gas Odorant
Acute oral toxicity : Acute toxicity estimate: 3,344 mg/kg
Method: Calculation method

SCENTINEL® N Gas Odorant
Acute inhalation toxicity : Acute toxicity estimate: > 20 mg/l
Test atmosphere: vapor
Method: Calculation method

SDS Number: 100000014161
SCENTINEL® N Gas Odorant

Acute dermal toxicity: Acute toxicity estimate: > 2,000 mg/kg
Method: Calculation method

Skin irritation: May cause skin irritation and/or dermatitis.

Eye irritation: Vapors may cause irritation to the eyes, respiratory system and the skin.

Sensitization: Causes sensitization.

Repeated dose toxicity

Butyl Mercaptan
Species: Rat, Male and female
Sex: Male and female
Application Route: Inhalation
Dose: 9, 97, 196 ppm
Exposure time: 13 wks
Number of exposures: 6 hrs/d, 5 d/wk
NOEL: > 196 ppm

Species: Rat, Male and female
Sex: Male and female
Application Route: Oral gavage
Dose: 10, 50, 200 mg/kg bw/day
Exposure time: 42-53 days
Number of exposures: Daily
NOEL: 50 mg/kg bw/day
Lowest observable effect level: 200 mg/kg bw/day
Method: OECD Guideline 422

Species: Rat, Male and female
Sex: Male and female
Application Route: Inhalation
Dose: 25.1, 99.6, 403.4 ppm
Exposure time: 13 wks
Number of exposures: 6 hrs/d, 5 d/wk
NOEL: 99.6 ppm
Lowest observable effect level: 403.4 ppm
Method: OECD Guideline 413
Target Organs: Liver, Kidney, Blood, Upper respiratory tract

Information given is based on data obtained from similar substances.

sec-butyl Mercaptan
Species: Rat, male and female
Sex: male and female
Application Route: Inhalation
Exposure time: 13 wks
Number of exposures: 6 hrs/d, 5 d/wk
NOEL: 0.367 mg/l 99.6 ppm
Lowest observable effect level: 1.488 mg/l 403.4 ppm
Method: OECD Guideline 413
Target Organs: Blood, Liver, Kidney, Upper respiratory tract
Reproductive toxicity

t-Butyl Mercaptan
- Species: Rat
- Sex: male and female
- Application Route: oral gavage
- Dose: 10, 50, 200 mg/kg bw/day
- Number of exposures: Daily
- Test period: 42-53 days
- Method: OECD Guideline 422
- NOAEL Parent: 200 mg/kg bw/day
- NOAEL F1: 50 mg/kg bw/day
- No adverse effects expected

sec-butyl Mercaptan
- Species: Rat
- Sex: male and female
- Application Route: oral gavage
- Dose: 10, 50, 200 mg/kg bw/day
- Number of exposures: Daily
- Test period: 42-50 days
- Method: OECD Guideline 422
- NOAEL Parent: 200 mg/kg
- NOAEL F1: 50 mg/kg
- Information given is based on data obtained from similar substances.

Developmental Toxicity

t-Butyl Mercaptan
- Species: Mouse
- Application Route: Inhalation
- Dose: 11, 99, 195 ppm
- Exposure time: GD 6-16
- Number of exposures: 6 hrs/d
- NOAEL Teratogenicity: > = 195 ppm
- NOAEL Maternal: > = 195 ppm

- Species: Rat
- Application Route: Inhalation
- Dose: 11, 99, 195 ppm
- Exposure time: GD6-19
- Number of exposures: 6 hrs/d
- NOAEL Teratogenicity: > =195 ppm
- NOAEL Maternal: > = 195 ppm

- Species: Rat
- Application Route: oral gavage
- Dose: 10, 50, 200 mg/kg bw/day
- Exposure time: 42-53 days
- Number of exposures: Daily
- NOAEL Teratogenicity: 50 mg/kg bw /day
- NOAEL Maternal: 200 mg/kg bw /day

sec-butyl Mercaptan
- Species: Rat
- Application Route: Inhalation
- Dose: 11, 99, 195 ppm
- Exposure time: GD 6-16
- Number of exposures: 6 hrs/d
- Method: OECD Guideline 414
- NOAEL Teratogenicity: > = 195 ppm
- NOAEL Maternal: > = 195 ppm
- Information given is based on data obtained from similar substances.
SCENTINEL® N Gas Odorant

Aspiration toxicity: May be harmful if swallowed and enters airways.

CMR effects:
- t-Butyl Mercaptan: Carcinogenicity: Not available
- Mutagenicity: Did not show mutagenic effects in animal experiments.
- Teratogenicity: Did not show teratogenic effects in animal experiments.
- Reproductive toxicity: No toxicity to reproduction

Further information:
- Solvents may degrease the skin. High concentration of vapors may cause irritation to eyes and respiratory system and produce narcotic effects.

SECTION 12: Ecological information

Toxicity to fish:
- t-Butyl Mercaptan: LC50: 34 mg/l
  Exposure time: 96 h
  Species: Oncorhynchus mykiss (rainbow trout)
  semi-static test Method: OECD Test Guideline 203

- Isopropyl Mercaptan: LC50: 34 mg/l
  Exposure time: 96 h
  semi-static test Analytical monitoring: yes
  Method: OECD Test Guideline 203
  Information given is based on data obtained from similar substances.

- n-Propyl Mercaptan: LC50: 1.3 mg/l
  Exposure time: 96 h
  Species: Pimephales promelas (fathead minnow)
  Analytical monitoring: yes
  Test substance: yes
  Method: OECD Test Guideline 203
  Toxic to aquatic organisms.

- sec-butyl Mercaptan: LC50: 8.5 mg/l
  Exposure time: 96 h
  Species: Oncorhynchus mykiss (rainbow trout)
Toxicity to daphnia and other aquatic invertebrates

**t-Butyl Mercaptan**: EC50: 6.7 mg/l
- Exposure time: 48 h
- Species: Daphnia magna (Water flea)
- Method: OECD Test Guideline 203

**Isopropyl Mercaptan**: EC50: 0.25 - 0.5 mg/l
- Exposure time: 48 h
- Species: Daphnia magna (Water flea)
- Static test method: OECD Test Guideline 202

**n-Propyl Mercaptan**: EC50: 0.07 mg/l
- Exposure time: 48 h
- Species: Daphnia magna (Water flea)
- Analytical monitoring: yes
- Test substance: yes
- Method: OECD Test Guideline 202

**sec-butyl Mercaptan**: 0.56 mg/l
- Exposure time: 48 h
- Species: Daphnia magna (Water flea)
- Immobilization method: OECD Test Guideline 202

Information refers to the main ingredient.

Toxicity to algae

**t-Butyl Mercaptan**: EC50: 24 mg/l
- Exposure time: 72 h
- Species: Pseudokirchneriella subcapitata (green algae)
- Method: OECD Test Guideline 201

**Isopropyl Mercaptan**: ErC50: 21.9 mg/l
- Exposure time: 72 h
- Species: Pseudokirchneriella subcapitata (green algae)
- Static test method: OECD Test Guideline 201

**sec-butyl Mercaptan**: EC50: 3.4 mg/l
- Exposure time: 72 h
- Species: Pseudokirchneriella subcapitata (green algae)
- Growth inhibition method: OECD Test Guideline 201

**M-Factor**

- Propane-2-thiol: M-Factor (Acute Aquat. Tox.) 1
- M-Factor (Chron. Aquat. Tox.) 1

**M-Factor**

- Propane-1-thiol: M-Factor (Acute Aquat. Tox.) 10

Ecotoxicology Assessment

Acute aquatic toxicity:
- t-Butyl Mercaptan: Toxic to aquatic life.
- Isopropyl Mercaptan: Very toxic to aquatic life.
- n-Propyl Mercaptan: Very toxic to aquatic life.
- sec-butyl Mercaptan: Very toxic to aquatic life.

Chronic aquatic toxicity:
- t-Butyl Mercaptan: Toxic to aquatic life with long lasting effects.
- Isopropyl Mercaptan: Very toxic to aquatic life with long lasting effects.
n-Propyl Mercaptan : Very toxic to aquatic life with long lasting effects.
sec-butyl Mercaptan : Very toxic to aquatic life with long lasting effects.

Results of PBT assessment

t-Butyl Mercaptan : Non-classified PBT substance, Non-classified vPvB substance
Isopropyl Mercaptan : Non-classified PBT substance, Non-classified vPvB substance
Additional ecological information : Very toxic to aquatic life., Very toxic to aquatic life with long lasting effects.

SECTION 13: Disposal considerations

The information in this SDS pertains only to the product as shipped. Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product : The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

Contaminated packaging : Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.

SECTION 14: Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.
