n-Dodecyl Methyl Sulfide

Section 1: Identification of the substance/mixture and of the company/undertaking

Product information

Product Name: n-Dodecyl Methyl Sulfide
Material: 1118938, 1118937, 1118936, 1112338, 1024620, 1024619, 1024618, 1024621, 1033592, 1032971, 1027476, 1024833

Use: Chemical intermediate

Company: Chevron Phillips Chemical Company LP
Specialty Chemicals
10001 Six Pines Drive
The Woodlands, TX 77380

Emergency telephone:

Section 2: Hazards identification

Classification of the substance or mixture
This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.

Classification: Skin sensitization, Category 1

Labeling
n-Dodecyl Methyl Sulfide

Version 2.4

Revision Date 2018-06-20

Symbol(s): 

Signal Word: Warning

Hazard Statements: H317: May cause an allergic skin reaction.

Precautionary Statements:

Prevention:
P261 Avoid breathing dust/fume/gas/mist/vapors/spray.
P272 Contaminated work clothing must not be allowed out of the workplace.
P280 Wear protective gloves.

Response:
P302 + P352 IF ON SKIN: Wash with plenty of soap and water.
P333 + P313 If skin irritation or rash occurs: Get medical advice/attention.
P363 Wash contaminated clothing before reuse.

Disposal:
P501 Dispose of contents/container to an approved waste disposal plant.

Carcinogenicity:

IARC
No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

NTP
No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

SECTION 3: Composition/information on ingredients

Synonyms: Methyl n-Dodecyl Sulfide
DDMS

Molecular formula: C13H28S

SECTION 4: First aid measures

General advice: Move out of dangerous area. Show this material safety data sheet to the doctor in attendance. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.

If inhaled: If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.

In case of skin contact: If on skin, rinse well with water.
In case of eye contact: Flush eyes with water as a precaution. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

If swallowed: Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.

SECTION 5: Firefighting measures

Flash point: 142 °C (288 °F)
Method: PMCC estimated

Autoignition temperature: No data available

Unsuitable extinguishing media: High volume water jet.

Specific hazards during firefighting: Do not allow run-off from fire fighting to enter drains or water courses.

Special protective equipment for fire-fighters: Wear self-contained breathing apparatus for firefighting if necessary.

Further information: Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

Fire and explosion protection: Normal measures for preventive fire protection.

SECTION 6: Accidental release measures

Personal precautions: Use personal protective equipment. Ensure adequate ventilation.

Environmental precautions: Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

Methods for cleaning up: Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7: Handling and storage

Handling

Advice on safe handling: Do not breathe vapors/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Dispose
of rinse water in accordance with local and national regulations. Persons susceptible to skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.

Advice on protection against fire and explosion:

Normal measures for preventive fire protection.

Storage:

Requirements for storage areas and containers:

Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

SECTION 8: Exposure controls/personal protection

Hazardous components without workplace control parameters

Engineering measures:

Adequate ventilation to control airborne concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the workplace when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment:

Respiratory protection:

Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as: Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

Hand protection:

The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection:

Eye wash bottle with pure water. Tightly fitting safety goggles.

Skin and body protection:

Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate: Remove and wash
**n-Dodecyl Methyl Sulfide**

**Version 2.4**

**Revision Date 2018-06-20**

Contaminated clothing before re-use. Skin should be washed after contact. Footwear protecting against chemicals.

Hygiene measures: When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

**SECTION 9: Physical and chemical properties**

### Information on basic physical and chemical properties

**Appearance**

- Form: Liquid
- Physical state: Liquid
- Color: Colorless to light yellow
- Odor: Pungent

**Safety data**

- Flash point: 142 °C (288 °F)  
  Method: PMCC estimated
- Lower explosion limit: No data available
- Upper explosion limit: No data available
- Oxidizing properties: No
- Autoignition temperature: No data available
- Molecular formula: C13H28S
- Molecular weight: 216.47 g/mol
- pH: No data available
- Freezing point: No data available

- Boiling point/boiling range: 294 - 315 °C (561 - 599 °F)
- Vapor pressure: No data available
- Relative density: 0.835  
  at 20 °C (68 °F)
- Water solubility: Insoluble
- Viscosity, dynamic: 3.71 cP
- Relative vapor density: No data available
- Evaporation rate: No data available
SECTION 10: Stability and reactivity

Chemical stability: This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

Possibility of hazardous reactions
Conditions to avoid: No data available.
Other data: No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

Acute oral toxicity
n-Dodecyl Methyl Sulfide: LD50: > 2,000 mg/kg
Species: Rat
Sex: female
Method: OECD Test Guideline 425

Skin irritation
n-Dodecyl Methyl Sulfide: slight irritation.

Eye irritation
n-Dodecyl Methyl Sulfide: slight irritation.

Sensitization
n-Dodecyl Methyl Sulfide: The product is a skin sensitizer, sub-category 1B.

Aspiration toxicity
n-Dodecyl Methyl Sulfide: May be harmful if swallowed and enters airways.

n-Dodecyl Methyl Sulfide Further information: Solvents may degrease the skin.

SECTION 12: Ecological information

Toxicity to fish
n-Dodecyl Methyl Sulfide: LC50: 0.115 mg/l
Exposure time: 96 h
Species: Fish
Method: QSAR modeled data

Toxicity to daphnia and other aquatic invertebrates
n-Dodecyl Methyl Sulfide: EC50: 24.5 µg/l
Exposure time: 48 h
n-Dodecyl Methyl Sulfide

Species: Daphnia magna (Water flea)
semi-static test Method: OECD Test Guideline 202

Biodegradability

n-Dodecyl Methyl Sulfide : aerobic
Result: Not readily biodegradable.
18 %
Testing period: 28 d
Method: OECD Test Guideline 310

Ecotoxicology Assessment

Acute aquatic toxicity
n-Dodecyl Methyl Sulfide : Very toxic to aquatic life.

Chronic aquatic toxicity
n-Dodecyl Methyl Sulfide : Very toxic to aquatic life with long lasting effects.

Additional ecological information
n-Dodecyl Methyl Sulfide : Very toxic to aquatic life with long lasting effects.

SECTION 13: Disposal considerations

The information in this SDS pertains only to the product as shipped.
Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product : The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

Contaminated packaging : Empty remaining contents. Dispose of as unused product. Do not re-use empty containers.

SECTION 14: Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.). Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the
bill of lading.

Reactivity Hazard: 0

Further information
Legacy SDS Number : 248840

Significant changes since the last version are highlighted in the margin. This version replaces all previous versions.

The information in this SDS pertains only to the product as shipped.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
