SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product information

Product Name: SCENTINEL® O-10 Gas Odorant

Material: 1098432, 1104051, 1024703, 1024707, 1024706, 1024705, 1024704

Use: Odorant

Company: Chevron Phillips Chemical Company LP
Specialty Chemicals
10001 Six Pines Drive
The Woodlands, TX 77380

Emergency telephone:

Website: www.CPChem.com

ODOR-FADE WARNING

A GAS LEAK CAN CAUSE A FIRE OR EXPLOSION RESULTING IN SERIOUS INJURY OR DEATH.

Be aware that the stenching chemical added to gas to make it detectable may not warn of a gas leak or the presence of propane or natural gas to all persons in every instance.

Instances where the odorant in an odorized gas may be undetectable include:

- Odor intensity may fade or be eliminated for a variety of chemical and physical causes, including the oxidation of rusting pipes, adsorption into or sticking onto the interior of pipes or appliances, or absorption into liquids.
- Contact with soil in underground leaks may de-odorize or remove odorant from the gas.
- Some people have a diminished ability, or inability to smell the stench. Factors that negatively
affect a person’s sense of smell include age, gender, medical conditions, and alcohol/tobacco usage.
• The stench of odorized gas may not awaken sleeping persons.
• Other odors may mask or hide the stench.
• Exposure to the odor for even a short period of time, may cause nasal fatigue, where a person can no longer smell the stench.

Gas detectors listed by the Underwriters Laboratories (UL) can be used as an extra measure of safety for detecting gas leaks, especially under conditions where the odorant alone may not provide an adequate warning. Gas detectors emit a loud, shrill sound when gas is present and do not depend on sense of smell. Because the odor intensity can fade or people may have problems with their sense of smell, we recommend installing, per manufacturer’s instructions, one or more combustible gas detectors, in suitable locations to ensure adequate coverage to detect gas leaks.

Educate yourself, your employees, and your customers with the content of this warning and other important facts associated with the so-called “odor-fade phenomenon.”

SECTION 2: Hazards identification

Classification of the substance or mixture
This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.

Classification
- Flammable liquids, Category 2
- Skin sensitization, Category 1

Labeling
Symbol(s):
- Flammable liquid
- Corrosive

Signal Word: Danger

Hazard Statements:
- H225: Highly flammable liquid and vapor.
- H317: May cause an allergic skin reaction.

Precautionary Statements:
**Prevention:**
- P210 Keep away from heat/sparks/open flames/hot surfaces.
- P233 Keep container tightly closed.
- P240 Ground/bond container and receiving equipment.
- P241 Use explosion-proof electrical/ventilating/lighting/equipment.
- P242 Use only non-sparking tools.
- P243 Take precautionary measures against static discharge.
- P261 Avoid breathing dust/fume/gas/mist/vapors/spray.
- P280 Wear protective gloves/eye protection/face protection.

**Response:**
- P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
- P302 + P352 IF ON SKIN: Wash with plenty of soap and water.
- P363 Wash contaminated clothing before reuse.
- P370 + P378 In case of fire: Use dry sand, dry chemical or
alcohol-resistant foam to extinguish.

Storage:
P403 + P235 Store in a well-ventilated place. Keep cool.

Disposal:
P501 Dispose of contents/ container to an approved waste disposal plant.

Carcinogenicity:
IARC No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

NTP No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

SECTION 3: Composition/information on ingredients

Synonyms:
Mercaptan Mixture
Gas Odorant

SECTION 4: First aid measures

General advice: Move out of dangerous area. Show this material safety data sheet to the doctor in attendance. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.

If inhaled: If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.

In case of skin contact: If on skin, rinse well with water. If on clothes, remove clothes.

In case of eye contact: Flush eyes with water as a precaution. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

If swallowed: Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.

SECTION 5: Firefighting measures

Flash point: < -17.8 °C (< -0.0 °F)
SAFETY DATA SHEET

SCENTINEL® O-10 Gas Odorant

Version 2.0

Revision Date 2018-05-09

Method: open cup estimated

Autoignition temperature : No data available

Suitable extinguishing media : Alcohol-resistant foam. Carbon dioxide (CO2). Dry chemical.

Unsuitable extinguishing media : High volume water jet.

Specific hazards during fire fighting : Do not allow run-off from fire fighting to enter drains or water courses.

Special protective equipment for fire-fighters : Wear self-contained breathing apparatus for firefighting if necessary.

Further information : Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.

Fire and explosion protection : Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

Hazardous decomposition products : Carbon oxides. Sulfur oxides.

SECTION 6: Accidental release measures

Personal precautions : Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

Environmental precautions : Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

Methods for cleaning up : Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

SECTION 7: Handling and storage

Handling

Advice on safe handling : Avoid formation of aerosol. Do not breathe vapors/dust. Avoid exposure - obtain special instructions before use. Avoid

SDS Number:100000014191  4/16
contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations. Persons susceptible to skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.

Advice on protection against fire and explosion:

Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

Storage

Requirements for storage areas and containers:

No smoking. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

SECTION 8: Exposure controls/personal protection

Engineering measures

Adequate ventilation to control airborne concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

Respiratory protection:

Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as: Air-Purifying Respirator for Organic Vapors. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not
known, or other circumstances where air-purifying respirators may not provide adequate protection.

Hand protection : The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection : Eye wash bottle with pure water. Tightly fitting safety goggles.

Skin and body protection : Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific workplace. Wear as appropriate: Remove and wash contaminated clothing before re-use. Skin should be washed after contact. Footwear protecting against chemicals.

Hygiene measures : When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

</table>
Pour point: No data available

Boiling point/boiling range: 46.1 - 76.6 °C (115.0 - 169.9 °F)

Vapor pressure: 9.00 PSI at 37.8 °C (100.0 °F) estimated

Relative density: 0.82 at 15.6 °C (60.1 °F)

Density: 822 g/l

Water solubility: ~ 0.396 PPH

Partition coefficient: n-octanol/water: No data available

Viscosity, kinematic: No data available

Relative vapor density: 1 (Air = 1.0)

Evaporation rate: 1

Percent volatile: > 99 %

SECTION 10: Stability and reactivity

Chemical stability: This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

Possibility of hazardous reactions

Conditions to avoid: Heat, flames and sparks.

Thermal decomposition: No data available

Hazardous decomposition products: Carbon oxides

Sulfur oxides

Other data: No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

SCENTINEL® O-10 Gas Odorant
Acute oral toxicity: Acute toxicity estimate: 2,802 mg/kg
Method: Calculation method
# SCENTINEL® O-10 Gas Odorant

**Acute inhalation toxicity**
- Acute toxicity estimate: \( > 20 \text{ mg/l} \)
- Exposure time: 4 h
- Test atmosphere: vapor
- Method: Calculation method

**Acute dermal toxicity**
- Acute toxicity estimate: \( > 2,000 \text{ mg/kg} \)
- Method: Calculation method

**Skin irritation**
- May irritate skin.

**Eye irritation**
- Vapors may cause irritation to the eyes, respiratory system and the skin.

**Sensitization**
- Causes sensitization.

## Repeated dose toxicity

### t-Butyl Mercaptan
- Species: Rat, Male and female
- Sex: Male and female
- Application Route: Inhalation
- Dose: 9, 97, 196 ppm
- Exposure time: 13 wks
- Number of exposures: 6 hrs/d, 5 d/wk
- NOEL: \( > 196 \text{ ppm} \)

- Species: Rat, Male and female
- Sex: Male and female
- Application Route: Oral gavage
- Dose: 10, 50, 200 mg/kg bw/day
- Exposure time: 42-53 days
- Number of exposures: Daily
- NOEL: 50 mg/kg bw/day
- Lowest observable effect level: 200 mg/kg bw/day
- Method: OECD Guideline 422

- Species: Rat, Male and female
- Sex: Male and female
- Application Route: Inhalation
- Dose: 25.1, 99.6, 403.4 ppm
- Exposure time: 13 wks
- Number of exposures: 6 hrs/d, 5 d/wk
- NOEL: 99.6 ppm
- Lowest observable effect level: 403.4 ppm
- Method: OECD Guideline 413
- Target Organs: Liver, Kidney, Blood, Upper respiratory tract
- Information given is based on data obtained from similar substances.

### Dimethyl Sulfide
- Species: Rat
- Application Route: Oral diet
- Dose: 0, 2.5, 25, 250 mg/kg bw/day
- Exposure time: 14 wk
- Number of exposures: daily
**SAFETY DATA SHEET**

**Reproductive toxicity**

- **t-Butyl Mercaptan**
  - Species: Rat
  - Sex: Male and female
  - Application Route: Inhalation
  - Dose: 0, 0.310, 0.964, 2.783 mg/l
  - Exposure time: 13 wk (6 h)
  - Number of exposures: 7 d/wk
  - NOEL: 2.783 mg/l
  - Method: OECD Guideline 413
  - Information given is based on data obtained from similar substances.

**Developmental Toxicity**

- **t-Butyl Mercaptan**
  - Species: Mouse
  - Application Route: Inhalation
  - Dose: 11, 99, 195 ppm
  - Exposure time: GD 6-16
  - Number of exposures: 6 hrs/d
  - NOAEL Teratogenicity: > = 195 ppm
  - NOAEL Maternal: > = 195 ppm

- **t-Butyl Mercaptan**
  - Species: Rat
  - Application Route: Inhalation
  - Dose: 11, 99, 195 ppm
  - Exposure time: GD 6-16
  - Number of exposures: 6 hrs/d
  - NOAEL Teratogenicity: > = 195 ppm
  - NOAEL Maternal: > = 195 ppm

- **Dimethyl Sulfide**
  - Species: Rat
  - Application Route: Oral gavage
  - Dose: 100, 500, 1000 mg/kg
  - Exposure time: GD 6 - 19
  - Number of exposures: daily
  - Test period: 20d
  - Method: OECD Guideline 414

**SDS Number:** 100000014191
NOAEL Teratogenicity: 1,000 mg/kg
NOAEL Maternal: 1,000 mg/kg

**SCENTINEL® O-10 Gas Odorant**

**Aspiration toxicity**
May be harmful if swallowed and enters airways.

**CMR effects**

- **t-Butyl Mercaptan**
  - Carcinogenicity: Not available
  - Mutagenicity: Did not show mutagenic effects in animal experiments.
  - Teratogenicity: Did not show teratogenic effects in animal experiments.
  - Reproductive toxicity: No toxicity to reproduction

- **Dimethyl Sulfide**
  - Carcinogenicity: Not available
  - Mutagenicity: Tests on bacterial or mammalian cell cultures did not show mutagenic effects. In vivo tests did not show mutagenic effects.
  - Teratogenicity: Animal testing did not show any effects on fetal development.
  - Reproductive toxicity: Animal testing did not show any effects on fertility.

**SCENTINEL® O-10 Gas Odorant**

**Further information**
Solvents may degrease the skin.

### SECTION 12: Ecological information

**Toxicity to fish**

- **Isopropyl Mercaptan**
  - LC50: 34 mg/l
  - Exposure time: 96 h
  - Analytical monitoring: yes
  - Method: OECD Test Guideline 203
  - Information given is based on data obtained from similar substances.

- **t-Butyl Mercaptan**
  - LC50: 34 mg/l
  - Exposure time: 96 h
  - Species: Oncorhynchus mykiss (rainbow trout)
  - semi-static test Method: OECD Test Guideline 203

- **n-Propyl Mercaptan**
  - LC50: 1.3 mg/l
  - Exposure time: 96 h
  - Species: Pimephales promelas (fathead minnow)
  - Analytical monitoring: yes
  - Test substance: yes
  - Method: OECD Test Guideline 203
  - Toxic to aquatic organisms.

- **Dimethyl Sulfide**
  - LC50: 213 mg/l
  - Exposure time: 96 h
  - Species: Oncorhynchus mykiss (rainbow trout)
  - Method: OECD Test Guideline 203
Toxicity to daphnia and other aquatic invertebrates

Isopropyl Mercaptan
EC50: 0.25 - 0.5 mg/l
Exposure time: 48 h
Species: Daphnia magna (Water flea)
static test Test substance: yes
Method: OECD Test Guideline 202

t-Butyl Mercaptan
EC50: 6.7 mg/l
Exposure time: 48 h
Species: Daphnia magna (Water flea)
static test Method: OECD Test Guideline 202

n-Propyl Mercaptan
EC50: 0.07 mg/l
Exposure time: 48 h
Species: Daphnia magna (Water flea)
Analytical monitoring: yes
Test substance: yes
Method: OECD Test Guideline 202
Very toxic to aquatic organisms.

Dimethyl Sulfide
EC50: 29 mg/l
Exposure time: 48 h
Species: Daphnia magna (Water flea)
static test Method: OECD Test Guideline 202

Toxicity to algae

Isopropyl Mercaptan
ErC50: 21.9 mg/l
Exposure time: 72 h
Species: Pseudokirchneriella subcapitata (green algae)
static test Method: OECD Test Guideline 201

t-Butyl Mercaptan
EC50: 24 mg/l
Exposure time: 72 h
Species: Pseudokirchneriella subcapitata (green algae)
Method: OECD Test Guideline 201

Dimethyl Sulfide
IC50: > 113.7 mg/l
Exposure time: 72 h
Species: Selenastrum capricornutum (algae)
Method: OECD Test Guideline 201

M-Factor
propane-2-thiol
M-Factor (Acute Aquat. Tox.) 1
M-Factor (Chron. Aquat. Tox.) 1

M-Factor
propane-1-thiol
M-Factor (Acute Aquat. Tox.) 10

Elimination information (persistence and degradability)

Bioaccumulation

Bioconcentration factor (BCF): 12
Bioaccumulation is unlikely.

**Biodegradability**

Taking into consideration the properties of several ingredients, the product is estimated not to be readily biodegradable according to OECD classification.

**Ecotoxicology Assessment**

**Acute aquatic toxicity**
- Isopropyl Mercaptan: Very toxic to aquatic life.
- t-Butyl Mercaptan: Toxic to aquatic life.
- n-Propyl Mercaptan: Very toxic to aquatic life.
- Dimethyl Sulfide: Harmful to aquatic life.

**Chronic aquatic toxicity**
- Isopropyl Mercaptan: Very toxic to aquatic life with long lasting effects.
- t-Butyl Mercaptan: Toxic to aquatic life with long lasting effects.
- n-Propyl Mercaptan: Very toxic to aquatic life with long lasting effects.

**Results of PBT assessment**
- Isopropyl Mercaptan: Non-classified PBT substance, Non-classified vPvB substance
- t-Butyl Mercaptan: Non-classified PBT substance, Non-classified vPvB substance
- Dimethyl Sulfide: Non-classified PBT substance, Non-classified vPvB substance

**Additional ecological information**

Very toxic to aquatic life with long lasting effects.

**SECTION 13: Disposal considerations**

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

**Product**

The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

**Contaminated packaging**

Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.
SECTION 14: Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.). Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

SAFETY DATA SHEET

SCENTINEL® O-10 Gas Odorant

Version 2.0
Revision Date 2018-05-09

SARA 311/312 Hazards : Flammable (gases, aerosols, liquids, or solids)
                      : Respiratory or skin sensitization

EPCRA - EMERGENCY PLANNING COMMUNITY RIGHT - TO – KNOW

CERCLA Reportable Quantity : This material does not contain any components with a CERCLA RQ.

SARA 302 Reportable Quantity : This material does not contain any components with a SARA 302 RQ.

SARA 302 Threshold Planning Quantity : This material does not contain any components with a section 302 EHS TPQ.

SARA 304 Reportable Quantity : This material does not contain any components with a section 304 EHS RQ.

SARA 313 Ingredients : This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

Clean Air Act

Ozone-Depletion Potential : This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).

This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 112 (40 CFR 61).

This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).

The following chemical(s) are listed under the U.S. Clean Air Act Section 111 SOCMI Intermediate or Final VOC’s (40 CFR 60.489):
                      : Dimethyl Sulfide - 75-18-3

US State Regulations
Pennsylvania Right To Know
- Dimethyl Sulfide - 75-18-3
- t-Butyl Mercaptan - 75-66-1

California Prop. 65 Ingredients
- This product does not contain any chemicals known to the State of California to cause cancer, birth, or any other reproductive defects.

- New Zealand NZIoC: On the inventory, or in compliance with the inventory
- Japan ENCS: On the inventory, or in compliance with the inventory
- Korea KECI: On the inventory, or in compliance with the inventory
- Philippines PICCS: On the inventory, or in compliance with the inventory
- China IECSC: On the inventory, or in compliance with the inventory

SECTION 16: Other information

NFPA Classification
- Health Hazard: 2
- Fire Hazard: 3
- Reactivity Hazard: 0

Further information
- Legacy SDS Number: 99730

Significant changes since the last version are highlighted in the margin. This version replaces all previous versions.

The information in this SDS pertains only to the product as shipped.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
