SAFETY DATA SHEET

DIACEL® RPM Powder

Version 1.3

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product information

Product Name: DIACEL® RPM Powder
Material: 1017934

Company
Chevron Phillips Chemical Company LP
10001 Six Pines Drive
The Woodlands, TX 77380

Local
Chevron Phillips Chemicals International N.V.
Airport Plaza (Stockholm Building)
Leonardo Da Vincilaan 19
1831 Diegem
Belgium

SECTION 2: Hazards identification

Classification of the substance or mixture
REGULATION (EC) No 1272/2008

SDS Number: 100000014422 1/9
Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

**Label elements**

**Labeling (REGULATION (EC) No 1272/2008)**

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

### SECTION 3: Composition/information on ingredients

**Synonyms**: None Established

**Mixtures**

**Hazardous ingredients**

<table>

### SECTION 4: First aid measures

**General advice**: No hazards which require special first aid measures.

**If inhaled**: If unconscious place in recovery position and seek medical advice. If symptoms persist, call a physician.

**In case of eye contact**: Flush eyes with water as a precaution. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

**If swallowed**: Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.

### SECTION 5: Firefighting measures

**Flash point**: Not applicable

**Autoignition temperature**: No data available

**Unsuitable extinguishing media**: High volume water jet.

**Special protective equipment for fire-fighters**: Wear self-contained breathing apparatus for firefighting if necessary.

SDS Number: 100000014422
Further information: Standard procedure for chemical fires. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Fire and explosion protection: Provide appropriate exhaust ventilation at places where dust is formed.

Hazardous decomposition products: Carbon oxides. Sulfur oxides.

SECTION 6: Accidental release measures

Personal precautions: Avoid dust formation. Avoid breathing dust.

Environmental precautions: Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

Methods for cleaning up: Keep in suitable, closed containers for disposal.

SECTION 7: Handling and storage

Handling

Advice on safe handling: For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Dispose of rinse water in accordance with local and national regulations.

Advice on protection against fire and explosion: Provide appropriate exhaust ventilation at places where dust is formed.

Storage

Requirements for storage areas and containers: Keep container tightly closed in a dry and well-ventilated place. Electrical installations/working materials must comply with the technological safety standards.

SECTION 8: Exposure controls/personal protection

Ingredients with workplace control parameters

Engineering measures

Adequate ventilation to control airborne concentrations below the exposure guidelines/limits.
Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the workplace when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

**Personal protective equipment**

Respiratory protection: Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as: Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

Hand protection: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection: Eye wash bottle with pure water. Safety glasses.

Skin and body protection: Wear as appropriate. Choose body protection according to the amount and concentration of the dangerous substance at the workplace. Protective suit. Safety shoes.

Hygiene measures: When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

**SECTION 9: Physical and chemical properties**

**Information on basic physical and chemical properties**

**Appearance**

Form: Powder
Physical state: Solid
Color: Light brown
Odor: Mild, earthy

**Safety data**

Flash point: Not applicable

Lower explosion limit: No data available

Upper explosion limit: No data available

Oxidizing properties: no
Autoignition temperature : No data available
Molecular weight : No data available
pH : 8
Pour point : Not applicable
Boiling point/boiling range : Not applicable
Vapor pressure : Not applicable
Relative density : 1,36
at 15,6 °C (60,1 °F)
Water solubility : Soluble
Partition coefficient: n-octanol/water : No data available
Viscosity, kinematic : No data available
Evaporation rate : No data available

SECTION 10: Stability and reactivity

Chemical stability : This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

Possibility of hazardous reactions
Conditions to avoid : Generation of Dusts.
Materials to avoid : Avoid contact with strong oxidizing agents.
Hazardous decomposition products : Carbon oxides Sulfur oxides

Other data : No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

Acute oral toxicity
Sodium Salt of Poly-Naphthalene Sulfonic Acid : LD50: >2000 milligram per kilogram Species: Rat

Acute inhalation toxicity
Sodium Salt of Poly- : LC50: not known
**DIACEL® RPM Powder**

**Naphthalene Sulfonic Acid**

**Acute dermal toxicity**
Sodium Salt of Poly-
Naphthalene Sulfonic Acid : LD50: PNT

**Skin irritation**
Sodium Salt of Poly-
Naphthalene Sulfonic Acid : No skin irritation

**Eye irritation**
Sodium Salt of Poly-
Naphthalene Sulfonic Acid : No eye irritation

**DIACEL® RPM Powder**

**Aspiration toxicity**
No aspiration toxicity classification.

**DIACEL® RPM Powder**

**Further information** : No data available.

### SECTION 12: Ecological information

Elimination information (persistence and degradability)

**Biodegradability** : This material is not expected to be readily biodegradable.

**Ecotoxicology Assessment**

**Additional ecological information** : No data available

### SECTION 13: Disposal considerations

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

**Product** : Do not dispose of waste into sewer. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

**Contaminated packaging** : Empty remaining contents. Dispose of as unused product. Do not re-use empty containers.

### SECTION 14: Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping.
description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

US DOT (UNITED STATES DEPARTMENT OF TRANSPORTATION)
NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

IMO / IMDG (INTERNATIONAL MARITIME DANGEROUS GOODS)
NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

IATA (INTERNATIONAL AIR TRANSPORT ASSOCIATION)
NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

ADR (AGREEMENT ON DANGEROUS GOODS BY ROAD (EUROPE))
NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

RID (REGULATIONS CONCERNING THE INTERNATIONAL TRANSPORT OF DANGEROUS GOODS (EUROPE))
NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

ADN (EUROPEAN AGREEMENT CONCERNING THE INTERNATIONAL CARRIAGE OF DANGEROUS GOODS BY INLAND WATERWAYS)
NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

National legislation

Major Accident Hazard Legislation : 96/82/EC Update: 2003 Directive 96/82/EC does not apply

Water contaminating class (Germany) : WGK 1 slightly water endangering

Notification status
Europe REACH : On the inventory, or in compliance with the inventory
United States of America TSCA : On TSCA Inventory

SDS Number:100000014422
SAFETY DATA SHEET

DIACEL® RPM Powder

Version 1.3  
Revision Date 2016-05-20

Canada  DSL: All components of this product are on the Canadian DSL
Australia  AICS: On the inventory, or in compliance with the inventory
New Zealand  NZIoC: On the inventory, or in compliance with the inventory
Japan  ENCS: On the inventory, or in compliance with the inventory
Korea  KECI: On the inventory, or in compliance with the inventory
Philippines  PICCS: On the inventory, or in compliance with the inventory
China  IECSC: On the inventory, or in compliance with the inventory

SECTION 16: Other information

NFPA Classification: Health Hazard: 0  
Fire Hazard: 2  
Reactivity Hazard: 0

Further information

Legacy SDS Number: 678430

Significant changes since the last version are highlighted in the margin. This version replaces all previous versions.

The information in this SDS pertains only to the product as shipped.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
