SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product information

Product Name: DIACEL® FL (Winterized) Cement Additive
Material: 1117114, 1114113, 1016939, 1025063, 1016942, 1016941, 1016940, 1033231, 1028297, 1028298

Use: Cement Additive

Company: Chevron Phillips Chemical Company LP
Drilling Specialties Company LLC
10001 Six Pines Drive
The Woodlands, TX 77380

Emergency telephone:

Health:
866.442.9628 (North America)

Argentina: +(54)-1159839431

Responsible Department: Product Safety and Toxicology Group
E-mail address: SDS@CPChem.com
Website: www.CPChem.com

SECTION 2: Hazards identification

Classification of the substance or mixture
This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.

Classification: Specific target organ systemic toxicity - repeated exposure, Category 2, Oral, Kidney
SAFETY DATA SHEET

DIACEL® FL (Winterized) Cement Additive

Version 1.6

Revision Date 2018-05-30

Labeling

Symbol(s) : 

Signal Word : Warning

Hazard Statements : H373: May cause damage to organs (Kidney) through prolonged or repeated exposure if swallowed.

Precautionary Statements : Prevention:
P260 Do not breathe dust/fume/gas/mist/vapor/spray.
Response:
P314 Get medical advice/attention if you feel unwell.
Disposal:
P501 Dispose of contents/container to an approved waste disposal plant.

Carcinogenicity:

IARC
No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

NTP
No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

ACGIH
No ingredient of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

SECTION 3: Composition/information on ingredients

Synonyms : None Established

Molecular formula : Mixture

SECTION 4: First aid measures

General advice : Move out of dangerous area. Show this material safety data sheet to the doctor in attendance.

If inhaled : If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.

In case of eye contact : Immediately flush eye(s) with plenty of water. Remove contact lenses. Protect unharmed eye. Keep eye wide open while...
If swallowed:
- Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.
- Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.

SECTION 5: Firefighting measures

Flash point: > 101 °C (> 214 °F)
Autoignition temperature: No data available

Unsuitable extinguishing media: High volume water jet.
Special protective equipment for fire-fighters: Wear self-contained breathing apparatus for firefighting if necessary.
Further information: Standard procedure for chemical fires. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Fire and explosion protection: Normal measures for preventive fire protection.
Hazardous decomposition products: No data available.

SECTION 6: Accidental release measures

Personal precautions: Use personal protective equipment.
Environmental precautions: Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
Methods for cleaning up: Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

SECTION 7: Handling and storage

Handling

Advice on safe handling: Do not breathe vapors/dust. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Dispose of rinse water in accordance with local and national regulations.
Advice on protection against fire and explosion: Normal measures for preventive fire protection.

Storage:

Requirements for storage areas and containers: Keep container tightly closed in a dry and well-ventilated place. Electrical installations / working materials must comply with the technological safety standards.

SECTION 8: Exposure controls/personal protection

Engineering measures

Adequate ventilation to control airborne concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

Respiratory protection: Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as: Air-Purifying Respirator for Organic Vapors, Dusts and Mists. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

Hand protection: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection: Eye wash bottle with pure water. Tightly fitting safety goggles.
Skin and body protection: Choose body protection according to the amount and concentration of the dangerous substance at the work place. Wear as appropriate: Protective suit. Safety shoes.

Hygiene measures: When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

**Appearance**
- Form: Liquid
- Physical state: Liquid
- Color: Clear to light amber
- Odor: Slight

**Safety data**
- Flash point: > 101 °C (> 214 °F)
- Lower explosion limit: No data available
- Upper explosion limit: No data available
- Oxidizing properties: no
- Autoignition temperature: No data available
- Molecular formula: Mixture
- Molecular weight: Not applicable
- pH: No data available
- Freezing point: No data available
- Pour point: No data available
- Boiling point/boiling range: > 100 °C (> 212 °F)
- Vapor pressure: No data available
- Relative density: 1.12
- Water solubility: Completely Soluble
- Partition coefficient: n-octanol/water: No data available
- Viscosity, kinematic: No data available
- Relative vapor density: No data available
- Evaporation rate: No data available
SECTION 10: Stability and reactivity

Chemical stability: This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

Possibility of hazardous reactions

Conditions to avoid: No data available.
Hazardous decomposition products: No data available

Other data: No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

DIACEL® FL (Winterized) Cement Additive

Acute oral toxicity: Acute toxicity estimate: > 5,000 mg/kg
Method: Calculation method

Skin irritation: May cause skin irritation in susceptible persons.

Eye irritation: May irritate eyes.

Sensitization
Ethylene Glycol: Did not cause sensitization on laboratory animals.

Repeated dose toxicity
### Ethylene Glycol

- **Species:** Rat  
- **Application Route:** Oral  
- **Dose:** 0, 40, 200, or 1000 mg/kg/day  
- **Exposure time:** 2 yr  
- **Number of exposures:** daily  
- **NOEL:** 200 mg/kg  
- **Lowest observable effect level:** 1,000 mg/kg  
- **Target Organs:** Kidney  

- **Species:** Rat  
  - **Application Route:** Oral  
  - **Dose:** 0, 150, 300 or 400 mg/kg/day  
  - **Exposure time:** 1 yr  
  - **Number of exposures:** daily  
  - **NOEL:** 150 mg/kg  
  - **Lowest observable effect level:** 300 mg/kg  
  - **Target Organs:** Kidney

#### Carcinogenicity

- **Ethylene Glycol**  
  - **Species:** Mouse  
  - **Sex:** male  
  - **Dose:** 0, 1500, 3000, or 6000 mg/kg/d  
  - **Exposure time:** 2 yr  
  - **Number of exposures:** daily  
  - **Remarks:** No evidence of carcinogenicity

  - **Species:** Mouse  
    - **Sex:** female  
    - **Dose:** 0, 3000, 6000, 12000 mg/kg/d  
    - **Exposure time:** 2 yr  
    - **Number of exposures:** daily  
    - **Remarks:** No evidence of carcinogenicity

#### Reproductive Toxicity

- **Ethylene Glycol**  
  - **Species:** Mouse  
    - **Application Route:** Oral diet  
    - **Dose:** 0, 410, 840, or 1640 mg/kg/day  
    - **Number of exposures:** daily  
    - **NOAEL Parent:** > 1640 mg/kg/day  
    - **NOAEL F1:** 840 mg/kg/day

  - **Species:** Rat  
    - **Sex:** male  
    - **Application Route:** Oral diet  
    - **Dose:** 0, 40, 200, 1000 mg/kg/d  
    - **Number of exposures:** daily  
    - **NOAEL Parent:** > 1000 mg/kg/day  
    - **NOAEL F1:** > 1000 mg/kg/day

  - **no abnormalities observed**

#### Developmental Toxicity

- **Ethylene Glycol**  
  - **Species:** Mouse  
    - **Application Route:** oral gavage  
    - **Dose:** 0, 150, 500, or 1500 mg/kg/day  
    - **Exposure time:** GD 6-15
DIACEL® FL (Winterized) Cement Additive

NOAEL Teratogenicity: 150 mg/kg/day
NOAEL Maternal: > 1500 mg/kg/day

DIACEL® FL (Winterized) Cement Additive
Aspiration toxicity: No aspiration toxicity classification.

DIACEL® FL (Winterized) Cement Additive
Further information: No data available.

SECTION 12: Ecological information

Toxicity to fish
Ethylene Glycol: LC50: 22810-24591 mg/l
   Exposure time: 96 h
   Species: Oncorhynchus mykiss (rainbow trout)
   static test
LC50: 49000-72860 mg/l
   Exposure time: 96 h
   Species: Pimephales promelas (fathead minnow)
   static test

Toxicity to daphnia and other aquatic invertebrates
Ethylene Glycol: LC50: 46300-51000 mg/l
   Exposure time: 48 h
   Species: Daphnia magna (Water flea)

Toxicity to algae
Ethylene Glycol: EC50: 10,940 mg/l
   Exposure time: 96 h
   Species: Selenastrum capricornutum (algae)
   Growth inhibition
EC50: 33130-47750 mg/l
   Exposure time: 96 h
   Species: Lemna minor (common duckweed)

Toxicity to fish (Chronic toxicity)
Ethylene Glycol: NOEC: 32,000 mg/l
   Species: Pimephales promelas (fathead minnow)

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)
Ethylene Glycol: NOEC: 24,000 mg/l
   Species: Daphnia

Elimination information (persistence and degradability)
Bioaccumulation
Ethylene Glycol: Species: Leuciscus idus (Golden orfe)
   Exposure time: 3 d
Concentration: 0.05 mg/l
Bioconcentration factor (BCF): 10

Biodegradability: Taking into consideration the properties of several ingredients, the product is estimated not to be readily biodegradable according to OECD classification.

Ecotoxicology Assessment
Additional ecological information: This material is not expected to be harmful to aquatic organisms.

SECTION 13: Disposal considerations

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product: Do not dispose of waste into sewer. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

Contaminated packaging: Empty remaining contents. Dispose of as unused product. Do not re-use empty containers.

SECTION 14: Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

US DOT (UNITED STATES DEPARTMENT OF TRANSPORTATION)
NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

IMO / IMDG (INTERNATIONAL MARITIME DANGEROUS GOODS)
NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

IATA (INTERNATIONAL AIR TRANSPORT ASSOCIATION)
NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.
### ADR (AGREEMENT ON DANGEROUS GOODS BY ROAD (EUROPE))
Not regulated as a hazardous material or dangerous goods for transportation by this agency.

### RID (REGULATIONS CONCERNING THE INTERNATIONAL TRANSPORT OF DANGEROUS GOODS (EUROPE))
Not regulated as a hazardous material or dangerous goods for transportation by this agency.

### ADN (EUROPEAN AGREEMENT CONCERNING THE INTERNATIONAL CARRIAGE OF DANGEROUS GOODS BY INLAND WATERWAYS)
Not regulated as a hazardous material or dangerous goods for transportation by this agency.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

#### Clean Air Act

Ozone-Depletion Potential: This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).

The following chemical(s) are listed as HAP under the U.S. Clean Air Act, Section 12 (40 CFR 61):
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).

The following chemical(s) are listed under the U.S. Clean Air Act Section 111 SOCMI Intermediate or Final VOC's (40 CFR 60.489):

- Ethylene Glycol - 107-21-1

**US State Regulations**

**Pennsylvania Right To Know**
- Ethylene Glycol - 107-21-1

**New Jersey Right To Know**
- Ethylene Glycol - 107-21-1

**California Prop. 65**
**Ingredients**
- This product does not contain any chemicals known to the State of California to cause cancer, birth, or any other reproductive defects.

**Notification status**

**Europe REACH**
- A substance or substances in this product is not registered or notified to be registered. Importation or manufacture of this product is still permitted provided that it does not exceed the REACH minimum threshold quantity of the non-regulated substances.

**United States of America (USA) TSCA**
- On the inventory, or in compliance with the inventory
