### SECTION 2: Hazards identification

#### 2.1 Classification of the substance or mixture

**REGULATION (EC) No 1272/2008**

Aspiration hazard, Category 1 H304:
May be fatal if swallowed and enters airways.

#### 2.2 Labeling (REGULATION (EC) No 1272/2008)

**Hazard pictograms:**

[Graphic of a warning sign]

**Signal Word:** Danger

**Hazard Statements:** H304
May be fatal if swallowed and enters airways.

**Precautionary Statements:**

- **Response:**
  - P301 + P310
  - IF SWALLOWED: Immediately call a POISON CENTER/doctor.
  - P331
  - Do NOT induce vomiting.

- **Storage:**
  - P405
  - Store locked up.

- **Disposal:**
  - P501
  - Dispose of contents/container to an approved waste disposal plant.

Hazardous ingredients which must be listed on the label:
- Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics

**Additional Labeling:**

The following percentage of the mixture consists of ingredient(s) with unknown acute toxicity: 1 %
The following percentage of the mixture consists of ingredient(s) with unknown hazards to the aquatic environment: 1 %

SECTION 3: Composition/information on ingredients

3.1 - 3.2 Substance or Mixture

Molecular formula : UVCB

For the full text of the H-Statements mentioned in this Section, see Section 16.

SECTION 4: First aid measures

4.1 Description of first-aid measures

General advice : Move out of dangerous area. Show this material safety data sheet to the doctor in attendance. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.

If inhaled : If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.

In case of eye contact : Flush eyes with water as a precaution. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

If swallowed : Keep respiratory tract clear. Never give anything by mouth to an unconscious person. Take victim immediately to hospital. Do not ingest. If swallowed then seek immediate medical assistance.

SECTION 5: Firefighting measures

Flash point : 100,6 °C (213,1 °F)
Method: ASTM D 93

Autoignition temperature : No data available

5.1 Extinguishing media

Unsuitable extinguishing media : High volume water jet.
5.3 **Advice for firefighters**

Special protective equipment for fire-fighters: Wear self-contained breathing apparatus for firefighting if necessary.

Further information: Standard procedure for chemical fires. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Fire and explosion protection: Normal measures for preventive fire protection.

Hazardous decomposition products: Carbon oxides.

---

### SECTION 6: Accidental release measures

6.1 **Personal precautions, protective equipment and emergency procedures**

Personal precautions: Use personal protective equipment. Ensure adequate ventilation.

6.2 **Environmental precautions**

Environmental precautions: Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

6.3 **Methods and materials for containment and cleaning up**

Methods for cleaning up: Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.

6.4 **Reference to other sections**

Reference to other sections: For personal protection see section 8. For disposal considerations see section 13.

A quantitative risk assessment is not required for the environment. A quantitative risk assessment is not required for human health.

---

### SECTION 7: Handling and storage

7.1 **Precautions for safe handling**

Handling

Advice on safe handling: Do not breathe vapors/dust. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Dispose of rinse water in accordance with local and national regulations.

Advice on protection against fire and explosion: Normal measures for preventive fire protection.

7.2 **Conditions for safe storage, including any incompatibilities**
Storage

Requirements for storage areas and containers: Keep container tightly closed in a dry and well-ventilated place. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

SECTION 8: Exposure controls/personal protection

8.2 Exposure controls

Engineering measures

Adequate ventilation to control airborned concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

Respiratory protection: Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as: Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

Hand protection: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. If repeated and/or prolonged skin exposure to the substance is likely, then wear suitable gloves tested to EN374 and provide employee skin care programmes.

Eye protection: Eye wash bottle with pure water. Tightly fitting safety goggles.

Skin and body protection: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate: Protective suit. Safety shoes.

Hygiene measures: When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
### SECTION 9: Physical and chemical properties

## SECTION 10: Stability and reactivity

### 10.1 Reactivity
Reactivity: Stable under recommended storage conditions.

### 10.2 Chemical stability
Chemical stability: This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

### 10.3 Possibility of hazardous reactions

#### Hazardous reactions
Hazardous reactions: Hazardous reactions: Hazardous polymerization does not occur.

Further information: No decomposition if stored and applied as directed.

### 10.4 Conditions to avoid
Conditions to avoid: No data available.

### 10.5 Materials to avoid
Materials to avoid: May react with oxygen and strong oxidizing agents, such as chlorates, nitrates, peroxides, etc.

### 10.6 Hazardous decomposition products
Hazardous decomposition products: Carbon oxides

**Other data:** No decomposition if stored and applied as directed.

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

#### Acute oral toxicity

Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics: LD50: > 5,000 mg/kg
Species: Rat
Sex: male and female
Method: OECD Test Guideline 401
Information given is based on data obtained from similar substances.

#### Skin irritation

Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics: Repeated exposure may cause skin dryness or cracking.
Information given is based on data obtained from similar substances. May irritate skin.

#### Eye irritation
## SAFETY DATA SHEET

### SOLTROL® 220 Isoparaffin Solvent

**Version 1.8**

**Revision Date 2018-09-26**

<table>
<thead>
<tr>
<th>Category</th>
<th>Substance</th>
<th>Description</th>
</tr>
</thead>
</table>
| **Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics** | : No eye irritation  
Information given is based on data obtained from similar substances. |
| **Sensitization** | : Classification: Did not cause sensitization on laboratory animals.  
Information given is based on data obtained from similar substances. |
| **Repeated dose toxicity** | : Species: Rat, male and female  
Sex: male and female  
Application Route: oral gavage  
Exposure time: 13 wk  
Number of exposures: 7 d/wk  
NOEL: > 5,000 mg/kg  
Method: OECD Test Guideline 408  
No significant adverse effects were reported  
Information given is based on data obtained from similar substances. |
| | : Species: Rat, male and female  
Sex: male and female  
Application Route: Inhalation  
Exposure time: 13 wk  
Number of exposures: 6 h/d  
NOEL: 30 mg/l  
Method: OECD Test Guideline 413  
No significant adverse effects were reported  
Information given is based on data obtained from similar substances. |
| | : Species: Rat, male and female  
Sex: male and female  
Application Route: Dermal  
Exposure time: 13 wk  
Number of exposures: 5 d/wk  
NOEL: > 495 mg/kg  
Method: OECD Test Guideline 411  
No significant adverse effects were reported  
Information given is based on data obtained from similar substances. |
| **Genotoxicity in vitro** | : Test Type: reverse mutation assay  
Metabolic activation: with and without metabolic activation  
Method: OECD Test Guideline 471  
Result: negative  
Remarks: Information given is based on data obtained from similar substances. |
SOLTROL® 220 Isoparaffin Solvent

Test Type: Cytogenetic assay
Test system: Chinese hamster cells
Metabolic activation: with and without metabolic activation
Method: OECD Test Guideline 473
Result: negative
Remarks: Information given is based on data obtained from similar substances.

Test Type: Mouse lymphoma assay
Metabolic activation: with and without metabolic activation
Method: OECD Guideline 476
Result: negative
Remarks: Information given is based on data obtained from similar substances.

Reproductive toxicity
Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics
- Species: Rat
- Sex: male and female
- Application Route: oral gavage
- Dose: 50, 100, 750 mg/kg
- Exposure time: 70 d
- Number of exposures: Daily
- Method: OECD Test Guideline 416
- NOAEL Parent: >= 750 mg/kg
- NOAEL F1: >= 750 mg/kg
- No adverse effects expected

Information given is based on data obtained from similar substances.

SOLTROL® 220 Isoparaffin Solvent
Aspiration toxicity
- May be fatal if swallowed and enters airways.

CMR effects
Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics
- Carcinogenicity: Not available
- Mutagenicity: In vitro tests did not show mutagenic effects
- Reproductive toxicity: No evidence of adverse effects on sexual function and fertility, or on development, based on animal experiments.

SOLTROL® 220 Isoparaffin Solvent
Further information
- Solvents may degrease the skin.

SECTION 12: Ecological information

12.1 Toxicity

Toxicity to fish
Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics
- LL50: > 1.000 mg/l
- Exposure time: 96 h
- Species: Oncorhynchus mykiss (rainbow trout)
- static test Method: OECD Test Guideline 203

Information given is based on data obtained from similar substances.
Toxicity to daphnia and other aquatic invertebrates

Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics

: EL50: > 1.000 mg/l
Exposure time: 48 h
Species: Daphnia magna (Water flea)
Immobilization Method: OECD Test Guideline 202
Information given is based on data obtained from similar substances.

Toxicity to algae

Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics

: EL50: > 1.000 mg/l
Exposure time: 72 h
Species: Pseudokirchneriella subcapitata (green algae)
Growth inhibition Method: OECD Test Guideline 201
Information given is based on data obtained from similar substances.

Toxicity to bacteria

Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics

: > 100 mg/l
Exposure time: 3 h
Respiration inhibition Method: OECD Test Guideline 209
Information given is based on data obtained from similar substances.

12.2 Persistence and degradability

Biodegradability

Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics

: aerobic
Result: Readily biodegradable.
74 %
Testing period: 28 d
Method: OECD Test Guideline 306
Information given is based on data obtained from similar substances.

12.3 Bioaccumulative potential

Bioaccumulation

Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics

: The product may be accumulated in organisms.

12.4 Mobility in soil

Mobility

Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics

: immobile
SAFETY DATA SHEET

SOLTROL® 220 Isoparaffin Solvent
Version 1.8
Revision Date 2018-09-26

12.5 **Results of PBT and vPvB assessment**

Results of PBT assessment
Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics: Non-classified PBT substance, Non-classified vPvB substance

12.6 **Other adverse effects**

Additional ecological information: No data available

**Ecotoxicology Assessment**

Short-term (acute) aquatic hazard
Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics: This product has no known ecotoxicological effects.

Long-term (chronic) aquatic hazard
Hydrocarbons, C13-C16, Isoalkanes, less than 2% aromatics: This product has no known ecotoxicological effects.

**SECTION 13: Disposal considerations**

13.1 **Waste treatment methods**
The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product: Do not dispose of waste into sewer. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

Contaminated packaging: Empty remaining contents. Dispose of as unused product. Do not re-use empty containers.

**SECTION 14: Transport information**

14.1 - 14.7 **Transport information**
The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.). Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

National legislation

Water contaminating class : WGK 1 slightly water endangering

(Germany)

15.2 Chemical Safety Assessment
Components: Alkanes, C13-16-iso

A Chemical Safety Assessment has been carried out for this substance. A quantitative risk assessment is not required for the environment. A quantitative risk assessment is not required for human health.

Major Accident Hazard Legislation: 96/82/EC Update: 2003

Directive 96/82/EC does not apply

Notification status:

Europe REACH: On the inventory, or in compliance with the inventory
United States of America (USA): On TSCA Inventory
TSCA
Canada DSL: All components of this product are on the Canadian DSL
Australia AICS: On the inventory, or in compliance with the inventory
New Zealand NZIoC: On the inventory, or in compliance with the inventory
Japan ENCS: On the inventory, or in compliance with the inventory
Korea KECI: On the inventory, or in compliance with the inventory
Philippines PICCS: On the inventory, or in compliance with the inventory
China IECSC: On the inventory, or in compliance with the inventory

SECTION 16: Other information

NFPA Classification:
Health Hazard: 1
Fire Hazard: 1
Reactivity Hazard: 0

Further information
Legacy SDS Number: 59320

Significant changes since the last version are highlighted in the margin. This version replaces all previous versions.

The information in this SDS pertains only to the product as shipped.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
