Isobutane

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product information

Product Name: Isobutane
Material: 1020532, 1012533

Company: Chevron Phillips Chemical Company LP
10001 Six Pines Drive
The Woodlands, TX 77380

Emergency telephone:

Health:
866.442.9628 (North America)
1.832.813.4984 (International)

Transport:

Argentina: +(54)-1159839431

Responsible Department: Product Safety and Toxicology Group
E-mail address: SDS@CPChem.com
Website: www.CPChem.com

SECTION 2: Hazards identification

Classification of the substance or mixture
This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.

Classification
Gases under pressure, Liquefied gas
Flammable liquids, Category 1

SDS Number: 100000100432
Symbol(s):  
Signal Word: Danger
Hazard Statements:  
H224: Extremely flammable liquid and vapor.  
H280: Contains gas under pressure; may explode if heated.
Precautionary Statements:  
Prevention:  
P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.  
P233 Keep container tightly closed.  
P240 Ground/bond container and receiving equipment.  
P241 Use explosion-proof electrical/ventilating/lighting/equipment.  
P242 Use only non-sparking tools.  
P243 Take precautionary measures against static discharge.  
P280 Wear protective gloves/eye protection/face protection.
Response:  
P303 + P361 + P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.  
P370 + P378 In case of fire: Use dry sand, dry chemical or alcohol-resistant foam for extinction.
Storage:  
P410 + P403 Protect from sunlight. Store in a well-ventilated place.
Disposal:  
P501 Dispose of contents/container to an approved waste disposal plant.
Carcinogenicity:  
IARC No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
NTP No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

SECTION 3: Composition/information on ingredients

SECTION 4: First aid measures

General advice: Move out of dangerous area. Show this material safety data.
### Isobutane

**SAFETY DATA SHEET**

**Version 3.0**

**Revision Date 2019-06-05**

**SHEET**

If inhaled: Consult a physician after significant exposure. If unconscious, place in recovery position and seek medical advice.

In case of skin contact: If on skin, rinse well with water. If on clothes, remove clothes.

In case of eye contact: Flush eyes with water as a precaution. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

If swallowed: Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.

### SECTION 5: Firefighting measures

<table>
<thead>

</thead>
<tbody>
<tr>
<td>Personal precautions</td>
<td>Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.</td>
</tr>
</tbody>
</table>
Isobutane

Environmental precautions: Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

Methods for cleaning up: Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

SECTION 7: Handling and storage

Handling

Advice on safe handling: Avoid formation of aerosol. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.

Advice on protection against fire and explosion: Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

Storage

Requirements for storage areas and containers: No smoking. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

Engineering measures

Adequate ventilation to control airborned concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

Respiratory protection: Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as: Air-Purifying Respirator for Organic Vapors. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

Hand protection: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection: Eye wash bottle with pure water. Tightly fitting safety goggles.

Skin and body protection: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate: Flame retardant antistatic protective clothing. Workers should wear antistatic footwear.

Hygiene measures: When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

### SECTION 10: Stability and reactivity

**Chemical stability**

This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

**Possibility of hazardous reactions**

**Hazardous reactions**

Further information: No decomposition if stored and applied as directed.

Hazardous reactions: Vapors may form explosive mixture with air.

**Conditions to avoid**

Heat, flames and sparks.

**Thermal decomposition**

No data available

**Hazardous decomposition products**

No data available

**Other data**

No decomposition if stored and applied as directed.
Isobutane

SECTION 11: Toxicological information

Isobutane
Acute oral toxicity : LD50: > 5,000 mg/kg
Method: Estimated based on individual component values.

Isobutane
Acute inhalation toxicity : LC50: > 31 mg/l
Exposure time: 4 h
Species: Rat
Test atmosphere: vapor

Isobutane
Acute dermal toxicity : LD50: > 5,000 mg/kg
Method: Estimated based on individual component values.

Isobutane
Skin irritation : Rapid evaporation of the liquid may cause frostbite.

Eye irritation
Propane : No eye irritation
Contact with liquid or refrigerated gas can cause cold burns and frostbite.

Isobutane
Sensitization : No adverse effects expected.

Isobutane
Repeated dose toxicity : Method: Estimated based on individual component values.
No adverse effects expected

Isobutane
Genotoxicity in vitro : Test Type: Ames test
Result: negative

Isobutane
Carcinogenicity : Method: Not expected to be carcinogenic based on individual component data.

Reproductive toxicity
Propane : Species: Rat
Sex: male and female
Application Route: Inhalation
Dose: 0, 1200, 4000, 12000 ppm
Exposure time: 6 weeks
Number of exposures: 6 hours/day, 7 days/week
Test period: 6 weeks
Test substance: yes
Method: OECD Guideline 422
NOAEL Parent: 12000 ppm
NOAEL F1: 12000 ppm
Isobutane

Toxicology Assessment

Isobutane CMR effects
Carcinogenicity:
Not classifiable as a human carcinogen.
Mutagenicity:
This information is not available.
Teratogenicity:
Embryotoxicity classification not possible from current data.
Reproductive toxicity:
Fertility classification not possible from current data.

Isobutane Further information
Solvents may degrease the skin.

SECTION 12: Ecological information

Biodegradability
This material is expected to be readily biodegradable.

Elimination information (persistence and degradability)

Bioaccumulation
Propane
This material is not expected to bioaccumulate.
This substance is not considered to be persistent, bioaccumulating and toxic (PBT).
This substance is not considered to be very persistent and very bioaccumulating (vPvB).

Results of PBT assessment
Propane
This mixture contains no substance considered to be persistent, bioaccumulating and toxic (PBT).
This mixture contains no substance considered to be very persistent and very bioaccumulating (vPvB).

Additional ecological information
Isobutane
No data available

Propane
No data available

Ecotoxicology Assessment
Short-term (acute) aquatic hazard
Harmful to aquatic life.

SECTION 13: Disposal considerations

The information in this SDS pertains only to the product as shipped.
Isobutane

Version 3.0

Revision Date 2019-06-05

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product : Do not dispose of waste into sewer. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

Contaminated packaging : Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.

SECTION 14: Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

SECTION 15: Regulatory information

National legislation

**SARA 311/312 Hazards**
- Flammable (gases, aerosols, liquids, or solids)
- Gases under pressure

**CERCLA Reportable Quantity**
- Calculated RQ exceeds reasonably attainable upper limit.
- 1,3-Butadiene

**SARA 302 Reportable Quantity**
- This material does not contain any components with a SARA 302 RQ.

**SARA 302 Threshold Planning Quantity**
- No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

**SARA 304 Reportable Quantity**
- This material does not contain any components with a section 304 EHS RQ.

**SARA 313 Components**
- This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

Clean Air Act

**Ozone-Depletion Potential**
- This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).

The following chemical(s) are listed as HAP under the U.S. Clean Air Act, Section 12 (40 CFR 61):
- 1,3-Butadiene - 106-99-0

The following chemical(s) are listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F):
- Isobutane - 75-28-5
- n-Butane - 106-97-8
- Propane - 74-98-6
- 1,3-Butadiene - 106-99-0

SDS Number:100000100432
The following chemical(s) are listed under the U.S. Clean Air Act Section 111 SOCMI Intermediate or Final VOC's (40 CFR 60.489):

- 1,3-Butadiene - 106-99-0

US State Regulations

Pennsylvania Right To Know:
- Isobutane - 75-28-5
- n-Butane - 106-97-8
- Propane - 74-98-6
- 1,3-Butadiene - 106-99-0

California Prop. 65 Components:
- WARNING! This product contains a chemical known in the State of California to cause cancer.
- WARNING: This product contains a chemical known in the State of California to cause birth defects or other reproductive harm.

Notification status

- Europe REACH: Not in compliance with the inventory
- United States of America (USA) TSCA: On the inventory, or in compliance with the inventory
- Canada DSL: On the inventory, or in compliance with the inventory
- Australia AICS: On the inventory, or in compliance with the inventory
- New Zealand NZIoC: On the inventory, or in compliance with the inventory
- Japan ENCS: On the inventory, or in compliance with the inventory
- Korea KECI: On the inventory, or in compliance with the inventory
- Philippines PICCS: On the inventory, or in compliance with the inventory
- China IECSC: On the inventory, or in compliance with the inventory

SECTION 16: Other information

**NFPA Classification**
- Health Hazard: 1
- Fire Hazard: 4
- Reactivity Hazard: 0

Further information

Significant changes since the last version are highlighted in the margin. This version replaces all previous versions.

The information in this SDS pertains only to the product as shipped.
The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
