SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product information

Product Name: Low Aromatic Solvent 170, LAS 170
Material: 1071890, 1114090, 1114089, 1114088

Company: Chevron Phillips Chemical Company LP
10001 Six Pines Drive
The Woodlands, TX 77380

Emergency telephone:

Health:
866.442.9628 (North America)
1.832.813.4984 (International)

Transport:

Argentina: +(54)-1159839431

Responsible Department: Product Safety and Toxicology Group
E-mail address: SDS@CPChem.com
Website: www.CPChem.com

SECTION 2: Hazards identification

Classification of the substance or mixture
This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.

Classification:
- Flammable liquids, Category 4
- Skin irritation, Category 2
- Aspiration hazard, Category 1

Labeling

SDS Number: 100000101906
Low Aromatic Solvent 170, LAS 170

Symbol(s):

Signal Word: Danger

Hazard Statements:
- H227: Combustible liquid.
- H304: May be fatal if swallowed and enters airways.
- H315: Causes skin irritation.

Precautionary Statements:

**Prevention:**
- P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.
- P264 Wash skin thoroughly after handling.
- P280 Wear protective gloves/eye protection/face protection.

**Response:**
- P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER/doctor.
- P302 + P352 IF ON SKIN: Wash with plenty of soap and water.
- P331 Do NOT induce vomiting.
- P332 + P313 If skin irritation occurs: Get medical advice/attention.
- P362 Take off contaminated clothing and wash before reuse.
- P370 + P378 In case of fire: Use dry sand, dry chemical or alcohol-resistant foam for extinction.

**Storage:**
- P403 + P235 Store in a well-ventilated place. Keep cool.
- P405 Store locked up.

**Disposal:**
- P501 Dispose of contents/container to an approved waste disposal plant.

**Carcinogenicity:**

**IARC**
No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

**NTP**
No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

**ACGIH**
Confirmed animal carcinogen with unknown relevance to humans
Distillates (petroleum), 64742-47-8
Hydrotreated light

**SECTION 3: Composition/information on ingredients**

**Synonyms:**
- Low Aromatic Solvent
- Solvent
- LAS 170

**Molecular formula:**
UVCB

Version 1.8

Revision Date 2017-10-04

| Distillates (petroleum), Hydrotreated light | 64742-47-8 | 100 |

SECTION 4: First aid measures

General advice: Move out of dangerous area. Show this material safety data sheet to the doctor in attendance. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.

If inhaled: If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.

In case of skin contact: If skin irritation persists, call a physician. If on skin, rinse well with water. If on clothes, remove clothes.

In case of eye contact: Flush eyes with water as a precaution. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

If swallowed: Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.

SECTION 5: Firefighting measures

Flash point: 77 °C (170 °F)

Autoignition temperature: 227 °C (441 °F)

Suitable extinguishing media: Carbon dioxide (CO2).

Unsuitable extinguishing media: High volume water jet.

Specific hazards during firefighting: Do not allow run-off from fire fighting to enter drains or water courses.

Special protective equipment for fire-fighters: Wear self-contained breathing apparatus for firefighting if necessary.

Further information: Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.

Fire and explosion protection: Do not spray on an open flame or any other incandescent material. Keep away from open flames, hot surfaces and sources of ignition.

Hazardous decomposition products: Hydrocarbons. Carbon oxides.

SDS Number:100000101906 3/13
SECTION 6: Accidental release measures

Personal precautions: Use personal protective equipment. Ensure adequate ventilation.

Environmental precautions: Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

Methods for cleaning up: Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal.

SECTION 7: Handling and storage

Handling

Advice on safe handling: Avoid formation of aerosol. Do not breathe vapors/dust. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Provide sufficient air exchange and/or exhaust in work rooms. Dispose of rinse water in accordance with local and national regulations.

Advice on protection against fire and explosion: Do not spray on an open flame or any other incandescent material. Keep away from open flames, hot surfaces and sources of ignition.

Storage

Requirements for storage areas and containers: No smoking. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

SECTION 8: Exposure controls/personal protection

Engineering measures

Adequate ventilation to control airborne concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

Respiratory protection : Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as: Air-Purifying Respirator for Organic Vapors. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

Hand protection : The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection : Eye wash bottle with pure water. Tightly fitting safety goggles.

Skin and body protection : Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate: Flame-resistant clothing. Footwear protecting against chemicals.

Hygiene measures : When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

SAFETY DATA SHEET

Low Aromatic Solvent 170, LAS 170

Version 1.8
Revision Date 2017-10-04

Safety data

Flash point : 77 °C (170 °F)
Lower explosion limit : Not applicable
Upper explosion limit : Not applicable
Autoignition temperature : 227 °C (441 °F)
Molecular formula : UVCB
Molecular weight : Not applicable
pH : Not applicable
Pour point : -21 °C (-6 °F)

Boiling point/boiling range : 207 - 274 °C (405 - 526 °F)
Method: ASTM D 86
Vapor pressure : 0.28 PSI
Method: ASTM D5191
Relative density : 0.8238
at 15 °C (59 °F)
Density : 6.8 L/G
Water solubility : Negligible
Partition coefficient: n-octanol/water : No data available
Viscosity, kinematic : 2.12 cSt
at 40 °C (104 °F)
Method: ASTM D 445
Relative vapor density : Not applicable
Evaporation rate : No data available

SECTION 10: Stability and reactivity

Chemical stability : This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

Possibility of hazardous reactions

Conditions to avoid : Heat, flames and sparks.
Materials to avoid : May react with oxygen and strong oxidizing agents, such as chlorates, nitrates, peroxides, etc.
Hazardous decomposition : Hydrocarbons

SDS Number: 100000101906
Low Aromatic Solvent 170, LAS 170

SECTION 11: Toxicological information

Low Aromatic Solvent 170, LAS 170
Acute oral toxicity : LD50 Oral: > 5,000 mg/kg
                      Species: Rat
                      Method: Acute toxicity estimate

Low Aromatic Solvent 170, LAS 170
Acute inhalation toxicity : LC50: > 20 mg/l
                          Species: Rat
                          Test atmosphere: vapor
                          Method: Acute toxicity estimate

Low Aromatic Solvent 170, LAS 170
Acute dermal toxicity : LD50 Dermal: > 5,000 mg/kg
                       Species: Rabbit
                       Method: Acute toxicity estimate

Low Aromatic Solvent 170, LAS 170
Skin irritation : Irritating to skin.
                 May cause skin irritation in susceptible persons.

Low Aromatic Solvent 170, LAS 170
Eye irritation : May irritate eyes.
                Vapors may cause irritation to the eyes, respiratory system
                and the skin.

Low Aromatic Solvent 170, LAS 170
Sensitization : Did not cause sensitization on laboratory animals.
                Information refers to the main ingredient.

Repeated dose toxicity
Distillates (petroleum),
Hydrotreated light : Species: Rat, male
                  Sex: male
                  Application Route: inhalation (vapor)
                  Dose: 0 , 500, 1000 mg/m3
                  Exposure time: 13 wks
                  Number of exposures: 24 h/d
                  Lowest observable effect level: 500 mg/m3
                  Method: OECD Guideline 413
                  Target Organs: Kidney
Low Aromatic Solvent 170, LAS 170

Species: Rat, female  
Sex: female  
Application Route: inhalation (vapor)  
Dose: 0, 500, 1000 mg/m3  
Exposure time: 13 wks  
Number of exposures: 24 h/d  
NOEL: > 1000 mg/m3  
Method: OECD Guideline 413

No adverse effect has been observed in chronic toxicity tests.

Low Aromatic Solvent 170, LAS 170  
Carcinogenicity  
Method: Estimated based on individual component values.  
Remarks: Not expected to be carcinogenic based on individual component data.

Developmental Toxicity  
Distillates (petroleum), Hydrotreated light  
Species: Rat  
Application Route: Inhalation  
Dose: 0, 106, 364 mg/l  
Exposure time: 6h/d  
Test period: GD 6 - 20  
NOAEL Teratogenicity: >= 364 mg/l  
NOAEL Maternal: >= 364 mg/l

Species: Rat  
Application Route: oral gavage  
Dose: 500, 1000, 1500, 2000 mg/kg/d  
Exposure time: 10 d  
Test period: GD 6 - 15  
Method: OECD Guideline 414  
NOAEL Teratogenicity: 1,000 mg/kg  
NOAEL Maternal: 500 mg/kg

Low Aromatic Solvent 170, LAS 170  
Aspiration toxicity  
May be fatal if swallowed and enters airways.  
Substances known to cause human aspiration toxicity hazards or to be regarded as if they cause human aspiration toxicity hazard.

Low Aromatic Solvent 170, LAS 170  
Further information  
Solvents may degrease the skin. Inhalation of high vapor concentrations can cause CNS-depression and narcosis. Solvents may degrease the skin.

**SECTION 12: Ecological information**

**Toxicity to fish**  
Distillates (petroleum), Hydrotreated light  
NOEC: 2 mg/l  
Exposure time: 96 h  
Species: Salmo gairdneri (Rainbow trout)  
Method: OECD Test Guideline 203

**Toxicity to daphnia and other aquatic invertebrates**
Distillates (petroleum), Hydrotreated light : EL50: 1.4 mg/l
Species: Daphnia magna (Water flea)
Exposure time: 48 h
static test Method: OECD Test Guideline 202

**Toxicity to algae**

Distillates (petroleum), Hydrotreated light : EL50: 1 - 3 mg/l
Species: Pseudokirchneriella subcapitata (green algae)
Exposure time: 72 h
Method: OECD Test Guideline 201

**Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)**

Distillates (petroleum), Hydrotreated light : NOEC: 0.48 mg/l
Species: Daphnia magna (Water flea)
Exposure time: 21 Days
Method: OECD Test Guideline 211

Elimination information (persistence and degradability)

Biodegradability : Taking into consideration the properties of several ingredients, the product is estimated to be biodegradable according to OECD classification.

**Ecotoxicology Assessment**

Acute aquatic toxicity : Toxic to aquatic life.
Chronic aquatic toxicity : Toxic to aquatic life with long lasting effects.
Toxicity Data on Soil : No data available
Other organisms relevant to the environment : No data available
Impact on Sewage Treatment : No data available
Results of PBT assessment : This mixture contains no substance considered to be persistent, bioaccumulating and toxic (PBT).

Additional ecological information : Toxic to aquatic life with long lasting effects.
An environmental hazard cannot be excluded in the event of unprofessional handling or disposal., Toxic to aquatic life with long lasting effects.

**SECTION 13: Disposal considerations**

The information in this SDS pertains only to the product as shipped.
Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.
Low Aromatic Solvent 170, LAS 170

Product: The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

Contaminated packaging: Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.

SECTION 14: Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

US DOT (UNITED STATES DEPARTMENT OF TRANSPORTATION)
NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

Testing (ASTM D4206) has shown product does not sustain combustion.

IMO / IMDG (INTERNATIONAL MARITIME DANGEROUS GOODS)
