Classification : Flammable liquids, Category 4 Acute toxicity, Category 4, Inhalation Skin irritation, Category 2 Carcinogenicity, Category 2 Specific target organ toxicity - repeated exposure, Category 2, Liver, Blood, thymus Aspiration hazard, Category 1 Labeling Symbol(s) Signal Word Danger SDS Number:100000100063 2/17

Hazard Statements	 H227: Combustible liquid. H304: May be fatal if swallowed and enters airways. H315: Causes skin irritation. H332: Harmful if inhaled. H351: Suspected of causing cancer. H373: May cause damage to organs (Liver, Blood, thymus)
	through prolonged or repeated exposure.
Precautionary Statements	 Prevention: P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P210 Keep away from heat/ sparks/ open flames/ hot surfaces. No smoking. P260 Do not breathe dust/ fume/ gas/ mist/ vapors/ spray. P264 Wash skin thoroughly after handling. P271 Use only outdoors or in a well-ventilated area. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. Response: P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor. P302 + P352 IF ON SKIN: Wash with plenty of soap and water. P304 + P340 + P312 IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/ doctor if you feel unwell. P308 + P313 IF exposed or concerned: Get medical advice/ attention. P332 + P313 If skin irritation occurs: Get medical advice/ attention. P362 Take off contaminated clothing and wash before reuse. P370 + P378 In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish. Storage: P403 + P235 Store in a well-ventilated place. Keep cool. P405 Store locked up. Disposal P501 Dispose of contents/ container to an approved waste disposal plant.
Potential Health Effects Symptoms of Overexposure	: No data available
Carcinogenicity:	
IARC	Group 2B: Possibly carcinogenic to humans Naphthalene 91-20-3
NTP	Reasonably anticipated to be a human carcinogen Naphthalene 91-20-3
TION 3: Composition/info	rmation on ingredients
Synonyms	: Diesel Special Test Fuel

usTec™ Diesel Ceta	nο	Check Fuel Hi	SAFETY DATA SHEE	
sion 3.4	ne	, Check Fuel, Hi	Revision Date 2024-02-	
		High Cetane Check Fu		
Molecular formula	:	Mixture		
Component		CAS-No.	Weight %	
Diesel fuel, no. 2		68476-34-6	100	
Naphthalene		91-20-3	0 - 1	
CTION 4: First aid measures				
General advice	:	sheet to the doctor in a	area. Show this material safety data ttendance. Material may produce a I pneumonia if swallowed or vomited.	
If inhaled	:		er significant exposure. If unconscious, on and seek medical advice.	
In case of skin contact	:	If skin irritation persists with water. If on clothe	, call a physician. If on skin, rinse well s, remove clothes.	
In case of eye contact	:	Flush eyes with water as a precaution. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.		
If swallowed	:	Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.		
Notes to physician				
Symptoms	:	No data available.		
Risks	:	No data available.		
Treatment	:	No data available.		
CTION 5: Firefighting measu	res			
Flash point	:	80.8°C (177.4°F) Method: ASTM D 93		
Autoignition temperature	:	No data available		
Suitable extinguishing media	:	Alcohol-resistant foam. Carbon dioxide (CO2). Dry chemical.		
Unsuitable extinguishing media	:	High volume water jet.		
Specific hazards during fire fighting	:	Do not allow run-off fro courses.	m fire fighting to enter drains or water	
Special protective equipment for fire-fighters	:	Wear self-contained br necessary.	eathing apparatus for firefighting if	
S Number:100000100063		-	4/17	

isTor™ Diosol Cota	no	, Check Fuel, High
sion 3.4	ne	Revision Date 2024-02
Further information	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.
Fire and explosion protection	:	Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Keep away from open flames, hot surfaces and sources of ignition.
Hazardous decomposition products	:	Carbon Dioxide. Carbon oxides.
TION 6: Accidental release	me	asures
Personal precautions	:	Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.
Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
Methods for cleaning up	:	Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).
TION 7: Handling and stora	ige	
Handling		
Advice on safe handling	:	Avoid formation of aerosol. Do not breathe vapors/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.
Advice on protection against fire and explosion	:	Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Keep away from open flames, hot surfaces and sources of ignition.
Storage		
Requirements for storage	:	No smoking. Keep in a well-ventilated place. Containers
Number:100000100063		5/17

Engineering measures

Adequate ventilation to control airborned concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

Respiratory protection	: If ventilation or other engineering controls are not adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure, a supplied-air NIOSH approved respirator may be appropriate. If exposure to harmful levels of airborne material may occur, a NIOSH approved respirator that provides protection may be appropriate, such as:. Air-Purifying Respirator for Organic Vapors. A positive pressure, air-supplying respirator may be appropriate if there is potential for uncontrolled release, aerosolization, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.
Hand protection	: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time
SDS Number:100000100063	6/17

ısTec™ Diesel Ceta	ne, Check Fuel, High
sion 3.4	Revision Date 2024-
	which are provided by the supplier of the gloves. Also take int consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if the is any indication of degradation or chemical breakthrough.
Eye protection	: Eye wash bottle with pure water. Tightly fitting safety goggles
Skin and body protection	: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate:. Flame retardant protective clothing. Flame retardant antistatic protective clothing. Workers should wear antistatic footwear. Footwear protecting against chemicals.
Hygiene measures	: When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
TION 9: Physical and chen	nical properties
Information on basic phys	ical and chemical properties
Appearance	
Form	: liquid
Physical state	: liquid
Color	: Pale yellow, Brown
Odor	: Mild
Safety data	
Flash point	: 80.8°C (177.4°F) Method: ASTM D 93
Lower explosion limit	: No data available
Upper explosion limit	: No data available
Oxidizing properties	: No
Autoignition temperature	: No data available
Thermal decomposition	: No data available
Molecular formula	: Mixture
Molecular weight	: Not applicable
рН	: Not applicable
Pour point	: -15°C (5°F) Method: ASTM D97
Boiling point/boiling range	: 197-340°C (387-644°F) Method: ASTM D 86
Vapor pressure	: 0.10 hPa Method: ASTM D5191

usTec™ Diesel Cetar	ne, Check Fuel, High
sion 3.4	Revision Date 2024-02
Relative density	: 0.831 at 16 °C (61 °F)
Density	: 0.831 g/cm3 Method: ASTM D4052
Bulk density	: 6.94 L/G
Water solubility	: negligible
Partition coefficient: n-	: No data available
octanol/water Viscosity, kinematic	: 2.6 cSt at 40°C (104°F) Method: ASTM D 445
Relative vapor density	: No data available
Evaporation rate	: No data available
Conductivity	: No data available
CTION 10: Stability and reacti	vity
Reactivity	: Stable under recommended storage conditions.
Chemical stability	: This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
Possibility of hazardous rea	actions
Hazardous reactions	: Hazardous reactions: Vapors may form explosive mixture with air.
Conditions to avoid	: Heat, flames and sparks.
Materials to avoid	: May react with oxygen and strong oxidizing agents, such as chlorates, nitrates, peroxides, etc.
Thermal decomposition	: No data available
Hazardous decomposition products	: Carbon Dioxide Carbon oxides
Other data	: No decomposition if stored and applied as directed.
CTION 11: Toxicological infor	mation

Naphthalene Species: Rabbit Application Route: oral gavage Dose: 40, 200, 400 mg/kg Test period: 29 d, GD 6-18 NOAEL Teratogenicity: 400 mg/kg TrusTec TM Diesel Cetane, Check Fuel, High Aspiration toxicity : May be fatal if swallowed and enters airways. CMR effects Diesel fuel, no. 2 : Carcinogenicity: Limited evidence of carcinogenicity in animal studies Teratogenicity: Animal testing did not show any effects on fetal development.		Sex: female Dose: 10, 30 ppm Exposure time: 105 weeks Number of exposures: 6 hours/day, 5 days/week Test substance: yes Print Date: No information available. Remarks: increased incidence of alveolar/bronchiolar
Diesel fuel, no. 2 : Species: Rat Application Route: Inhalation Dose: 0, 86.9, 408.8 ppm Number of exposures: 6 h/d Test period: GD 6-15 Method: OECD Guideline 414 NOAEL Teratogenicity: 408.8 ppm NOAEL Maternal: 408.8 ppm Information given is based on data obtained from similar substances. Species: Rat Application Route: Dermal Dose: 30, 125, 500, 1000 mg/kg Exposure time: daily Test period: GD 0-20 Method: OECD Guideline 414 NOAEL Teratogenicity: 125 mg/kg Information given is based on data obtained from similar substances. Naphthalene Species: Rabbit Application Route: oral gavage Dose: 40, 200, 400 mg/kg Test period: 29 d, GD 6-18 NOAEL Teratogenicity: 400 mg/kg TrusTec™ Diesel Cetane, Check Fuel, High Aspiration toxicity : May be fatal if swallowed and enters airways. CMR effects : Carcinogenicity: Limited evidence of carcinogenicity in animal studies Teratogenicity: Animal testing did not show any effects on fetal development.		Sex: male and female Dose: 10, 30, 60 ppm Exposure time: 105 weeks Number of exposures: 6 hours/day, 5 days/week Test substance: yes Print Date: No information available. Remarks: nose respiratory epithelial adenoma, increased
Application Route: Inhalation Dose: 0, 86.9, 408.8 ppm Number of exposures: 6 h/d Test period: GD 6-15 Method: OECD Guideline 414 NOAEL Teratogenicity: 408.8 ppm NOAEL Maternal: 408.8 ppm NOAEL Maternal: 408.8 ppm Information given is based on data obtained from similar substances. sion 3.4	Revision Date 2024-02
Naphthalene	Carcinogenicity: Limited evidence of carcinogenicity in animal studies
TrusTec™ Diesel Cetan Further information TION 12: Ecological info	: Solvents may degrease the skin.
Toxicity to fish	
Diesel fuel, no. 2	: LL50: 21 mg/l Exposure time: 96 h Species: Oncorhynchus mykiss (rainbow trout) semi-static test Method: OECD Test Guideline 203
Naphthalene	LC50: 3.2 mg/l Exposure time: 96 h Species: Pimephales promelas (fathead minnow)
Toxicity to daphnia and	other aquatic invertebrates
Diesel fuel, no. 2	: EC50: 2 mg/l Exposure time: 48 h Species: Daphnia magna (Water flea) Method: OECD Test Guideline 202
Naphthalene	LC50: 2.16 mg/l Exposure time: 48 h Species: Daphnia magna (Water flea)
Toxicity to algae	
Diesel fuel, no. 2	 ErL50: 22 mg/l Exposure time: 72 h Species: Raphidocellus subcapitata (algae) static test Analytical monitoring: no Method: OECD Test Guideline 201
Naphthalene	EC50: 2.96 mg/l Exposure time: 48 h Species: Selenastrum capricornutum (algae)
Biodegradability	
Diesel fuel, no. 2	 aerobic Result: Not readily biodegradable. 57.5 % Testing period: 28 d Method: OECD Test Guideline 301F
Bioaccumulation	

usTec™ Diesel Cetar	
sion 3.4	Revision Date 2024-0
Diesel fuel, no. 2	: Accumulation in aquatic organisms is expected.
Mobility	
Diesel fuel, no. 2	: No data available
Results of PBT assessment Diesel fuel, no. 2	: Non-classified PBT substance, Non-classified vPvB substance
Additional ecological information Ecotoxicology Assessment	: Toxic to aquatic life with long lasting effects.
Short-term (acute) aquatic	
hazard Long-term (chronic) aquatic hazard	: Toxic to aquatic life with long lasting effects.
