

Dimethyl Disulfide

Version 7.0

Revision Date 2020-11-16

According to Regulation (EC) No. 1907/2006, Regulation (EC) No. 2015/830

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1

Product information

Product Name : Dimethyl Disulfide
 Material : 1123753, 1121187, 1119676, 1093527, 1086484, 1095605,
 1095604, 1095602, 1097432, 1093526, 1095603, 1076483,
 1034521, 1035203, 1031147, 1032633, 1034638, 1031751,
 1036662, 1034642, 1031840, 1036791, 1036352, 1034364,
 1036792, 1036131, 1024538

EC-No.Registration number

Chemical name	CAS-No. EC-No. Index No.	Legal Entity Registration number
Dimethyl Disulfide	624-92-0 210-871-0	Chevron Phillips Chemicals International NV 01-2119488939-10-XXXX

1.2

Relevant identified uses of the substance or mixture and uses advised against

Relevant Identified Uses Supported : Intermediate: The substance is registered as a Transported Isolated Intermediate with Strictly Controlled Conditions (SCC) defined in Article 18(4) of Regulation EC No. 1907/2006 and must therefore be handled as such.

1.3

Details of the supplier of the safety data sheet

Company : Chevron Phillips Chemical Company LP
 Specialty Chemicals
 10001 Six Pines Drive
 The Woodlands, TX 77380

Local : Chevron Phillips Chemicals International N.V.
 Airport Plaza (Stockholm Building)
 Leonardo Da Vincilaan 19
 1831 Diegem
 Belgium

SECTION 2: Hazards identification**2.1****Classification of the substance or mixture
REGULATION (EC) No 1272/2008**

Flammable liquids, Category 2

H225:

Highly flammable liquid and vapor.

Acute toxicity, Category 3

H301:

Toxic if swallowed.

Acute toxicity, Category 3

H331:

Toxic if inhaled.

Eye irritation, Category 2

H319:

Causes serious eye irritation.

Skin sensitization, Category 1

H317:

May cause an allergic skin reaction.

Specific target organ toxicity - single exposure, Category 1, Respiratory Tract

H370:

Causes damage to organs if inhaled.

Specific target organ toxicity - single exposure, Category 3, Central nervous system

H336:

May cause drowsiness or dizziness.

Short-term (acute) aquatic hazard, Category 1

H400:

Very toxic to aquatic life.

Long-term (chronic) aquatic hazard, Category 1

H410:

Very toxic to aquatic life with long lasting effects.

2.2**Labeling (REGULATION (EC) No 1272/2008)**

Hazard pictograms :

Signal Word : Danger

Dimethyl Disulfide

Version 7.0

Revision Date 2020-11-16

Hazard Statements	:	H225 H301 + H331 H317 H319 H336 H370 H410	Highly flammable liquid and vapor. Toxic if swallowed or if inhaled. May cause an allergic skin reaction. Causes serious eye irritation. May cause drowsiness or dizziness. Causes damage to organs (Respiratory Tract) if inhaled. Very toxic to aquatic life with long lasting effects.
Precautionary Statements	:	Prevention: P210 P260 P273 P280 Response: P301 + P310 + P330 P308 + P311 P370 + P378 P391 Storage: P403 + P233	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not breathe dust/ fume/ gas/ mist/ vapors/ spray. Avoid release to the environment. Wear protective gloves/ protective clothing/ eye protection/ face protection/ hearing protection. IF SWALLOWED: Immediately call a POISON CENTER/ doctor. Rinse mouth. IF exposed or concerned: Call a POISON CENTER/ doctor. In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish. Collect spillage. Store in a well-ventilated place. Keep container tightly closed.

Hazardous ingredients which must be listed on the label:

- 624-92-0 Dimethyl Disulfide

SECTION 3: Composition/information on ingredients**3.1 - 3.2****Substance or Mixture**

Synonyms	:	DMDS, Disulfide, dimethyl Dimethyl disulfide, Dimethyl disulphide, (Methyldithio) methane Methyl disulfide CPChem Dimethyl Disulfide
Molecular formula	:	C2H6S2

Hazardous ingredients

Chemical name	CAS-No. EC-No. Index No.	Classification (REGULATION (EC) No 1272/2008)	Concentration [wt%]

For the full text of the H-Statements mentioned in this Section, see Section 16.

SECTION 4: First aid measures**4.1****Description of first-aid measures**

- General advice : Move out of dangerous area. Consult a physician. Show this material safety data sheet to the doctor in attendance. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.
- If inhaled : Consult a physician after significant exposure. If unconscious, place in recovery position and seek medical advice.
- In case of skin contact : If skin irritation persists, call a physician. If on skin, rinse well with water. If on clothes, remove clothes.
- In case of eye contact : Immediately flush eye(s) with plenty of water. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.
- If swallowed : Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.

SECTION 5: Firefighting measures

Flash point : 15°C (59°F)
Method: closed cup

Autoignition temperature : No data available

5.1**Extinguishing media**

Suitable extinguishing media : Alcohol-resistant foam. Carbon dioxide (CO₂). Dry chemical.

Unsuitable extinguishing media : High volume water jet.

5.2**Special hazards arising from the substance or mixture**

Specific hazards during fire fighting : Do not allow run-off from fire fighting to enter drains or water courses.

5.3

Dimethyl Disulfide

Version 7.0

Revision Date 2020-11-16

Advice for firefighters

- Special protective equipment for fire-fighters : Wear self-contained breathing apparatus for firefighting if necessary.
- Further information : Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.
- Fire and explosion protection : Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.
- Hazardous decomposition products : Hydrogen Sulfide. Sulfur oxides.

SECTION 6: Accidental release measures**6.1****Personal precautions, protective equipment and emergency procedures**

- Personal precautions : Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

6.2**Environmental precautions**

- Environmental precautions : Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

6.3**Methods and materials for containment and cleaning up**

- Methods for cleaning up : Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

6.4**Reference to other sections**

- Reference to other sections : For personal protection see section 8. For disposal considerations see section 13.

SECTION 7: Handling and storage**7.1****Precautions for safe handling
Handling**

- Advice on safe handling : Avoid formation of aerosol. Do not breathe vapors/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see

Dimethyl Disulfide

Version 7.0

Revision Date 2020-11-16

section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations. Persons susceptible to skin sensitization problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.

Advice on protection against fire and explosion : Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

7.2**Conditions for safe storage, including any incompatibilities****Storage**

Requirements for storage areas and containers : No smoking. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

SECTION 8: Exposure controls/personal protection**Ingredients with workplace control parameters****SE**

Dimethyl Disulfide

Version 7.0

Revision Date 2020-11-16

8.2**Exposure controls****Engineering measures**

Adequate ventilation to control airborne concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

- Respiratory protection : Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as: Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, aerosolization, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.
- Hand protection : The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
- Eye protection : Eye wash bottle with pure water.
- Skin and body protection : Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate: Remove and wash contaminated clothing before re-use. Skin should be washed after contact. Footwear protecting against chemicals.
- Hygiene measures : Avoid contact with skin, eyes and clothing. When using do not eat or drink. When using do not smoke. Wash hands before breaks and immediately after handling the product.

For additional details, see the Exposure Scenario in the Annex portion

SECTION 9: Physical and chemical properties**9.1****Information on basic physical and chemical properties****Appearance**

- Form : liquid
Physical state : liquid

Dimethyl Disulfide

Version 7.0

Revision Date 2020-11-16

Color : Yellow
 Odor : Mildly unpleasant

Safety data

Flash point : 15°C (59°F)
 Method: closed cup

Lower explosion limit : 1,1 %(V)

Upper explosion limit : 16 %(V)

Oxidizing properties : No

Autoignition temperature : No data available

Molecular formula : C₂H₆S₂

Molecular weight : 94,2 g/mol

pH : No data available

Pour point : No data available

Boiling point/boiling range : 109°C (228°F)

Vapor pressure : 28,60 MMHG
 at 25°C (77°F)

Relative density : 1,06
 at 4 °C (39 °F)

Water solubility : negligible

Partition coefficient: n-
 octanol/water : Pow: 1,77

Viscosity, dynamic : 0,62 mPa.s

Relative vapor density : 3,25
 (Air = 1.0)

Evaporation rate : No data available

Percent volatile : > 99 %

SECTION 10: Stability and reactivity**10.1**

Reactivity : Stable under recommended storage conditions.

10.2

Dimethyl Disulfide

Version 7.0

Revision Date 2020-11-16

Chemical stability : This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

10.3**Possibility of hazardous reactions**

Hazardous reactions : Hazardous reactions: Hazardous polymerization does not occur.

Further information: No decomposition if stored and applied as directed.

Hazardous reactions: Vapors may form explosive mixture with air.

10.4

Conditions to avoid : Heat, flames and sparks.

10.6

Hazardous decomposition products : Hydrogen Sulfide
Sulfur oxides

Other data : No decomposition if stored and applied as directed.

SECTION 11: Toxicological information**11.1****Information on toxicological effects****Acute oral toxicity**

Dimethyl Disulfide : Acute toxicity estimate: 190 mg/kg
Method: Expert judgment

Acute inhalation toxicity

Dimethyl Disulfide : LC50: 5,05 mg/l
Exposure time: 4 h
Species: Rat
Test atmosphere: vapor
Method: OECD Test Guideline 403

**Dimethyl Disulfide
Skin irritation**

: May cause skin irritation and/or dermatitis.

**Dimethyl Disulfide
Eye irritation**

: May cause irreversible eye damage.

**Dimethyl Disulfide
Sensitization**

: Causes sensitization.

Genotoxicity in vitro

Dimethyl Disulfide : Test Type: Ames test
Method: Mutagenicity (Escherichia coli - reverse mutation assay)

Dimethyl Disulfide

Version 7.0

Revision Date 2020-11-16

Result: negative

Test Type: Chromosome aberration test in vitro

Method: OECD Guideline 473

Result: negative

Test Type: DNA damage and repair assay

Result: negative

Test Type: HGPRT assay

Method: OECD Guideline 476

Result: negative

Genotoxicity in vivo

Dimethyl Disulfide : Test Type: Mouse micronucleus assay
Result: negative

Aspiration toxicity

Dimethyl Disulfide : May be harmful if swallowed and enters airways.

CMR effects

Dimethyl Disulfide : Mutagenicity: Tests on bacterial or mammalian cell cultures did not show mutagenic effects.

Dimethyl Disulfide**Further information**

: Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting. Concentrations substantially above the TLV value may cause narcotic effects. Solvents may degrease the skin.

SECTION 12: Ecological information**12.1****Toxicity****Toxicity to fish**

Dimethyl Disulfide : LC50: 0,97 mg/l
Exposure time: 96 h
Species: Oncorhynchus mykiss (rainbow trout)
static test

Toxicity to daphnia and other aquatic invertebrates

Dimethyl Disulfide : LC50: 1,82 mg/l
Exposure time: 48 h
Species: Daphnia magna (Water flea)
semi-static test Method: OECD Test Guideline 202

Toxicity to algae

Dimethyl Disulfide : ErC50: 3,9 mg/l

Dimethyl Disulfide

Version 7.0

Revision Date 2020-11-16

Exposure time: 96 h
 Species: Skeletonema costatum (Marine Algae)
 static test Method: OECD Test Guideline 201

M-Factor

dimethyl disulphide : M-Factor (Acute Aquat. Tox.) 1
 M-Factor (Chron. Aquat. Tox.) 10

Toxicity to fish (Chronic toxicity)

Dimethyl Disulfide : NOEC: 0,47 mg/l
 Exposure time: 38 d
 Species: Cyprinodon variegatus (sheepshead minnow)
 Method: OECD Test Guideline 210

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)

Dimethyl Disulfide : NOEC: 0,0025 mg/l
 Exposure time: 21 d
 Species: Daphnia magna (Water flea)
 Method: OECD Test Guideline 211

12.2**Persistence and degradability**

Biodegradability

Dimethyl Disulfide : aerobic
 Result: Partially biodegradable.
 50 - 60 %
 Testing period: 28 d
 Method: OECD Test Guideline 310
 The 10 day time window criterion is not fulfilled.
 Expected to be inherently biodegradable.

12.3**Bioaccumulative potential**

Bioaccumulation

Dimethyl Disulfide : This material is not expected to bioaccumulate.

12.4**Mobility in soil**

Mobility

Dimethyl Disulfide : Groundwater contamination is unlikely.

12.5**Results of PBT and vPvB assessment**

Results of PBT assessment : This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Dimethyl Disulfide

Version 7.0

Revision Date 2020-11-16

12.6**Other adverse effects**

Additional ecological information : Very toxic to aquatic life with long lasting effects.

Ecotoxicology Assessment

Short-term (acute) aquatic hazard

Dimethyl Disulfide : Very toxic to aquatic life.

Long-term (chronic) aquatic hazard

Dimethyl Disulfide : Very toxic to aquatic life with long lasting effects.

SECTION 13: Disposal considerations**13.1****Waste treatment methods**

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product : The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

Contaminated packaging : Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.

For additional details, see the Exposure Scenario in the Annex portion

SECTION 14: Transport information**14.1 - 14.7****Transport information**

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.
