SECTION 2: Hazards identification

Classification of the substance or mixture
This product has been classified in accordance with the hazard communication standard 29 CFR
1910.1200; the SDS and labels contain all the information as required by the standard.

: Combustible dust

: Warning

by NTP.

Classification

Labeling

Signal Word

Hazard Statements

Carcinogenicity: IARC

NTP

No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen

: May form combustible dust concentrations in air.

SECTION 3: Composition/information on ingredients

	•

Synonyms	: None Established
Molecular formula	: Mixture

Component	CAS-No.	Weight %
Saturated monocarboxylic acid, calcium salt	Proprietary	1 - 5

SDS Number:10000067137

Flowzan® Biopolymer

SAFETY DATA SHEET

Version 2.4

Revision Date 2023-04-20

ION 4: First aid measures		
General advice	: No hazards which require special first aid measures.	
lf inhaled	: If unconscious, place in recovery position and seek medica advice. If symptoms persist, call a physician.	I
In case of eye contact	: Remove contact lenses. Protect unharmed eye. If eye irritation persists, consult a specialist.	
If swallowed	: Keep respiratory tract clear. Never give anything by mouth an unconscious person. If symptoms persist, call a physici	
TION 5: Firefighting measu	es	
Flash point	: Not applicable	
Autoignition temperature	: No data available	
Unsuitable extinguishing media	: High volume water jet.	
Specific hazards during fire fighting	: Risks of ignition followed by flame propagation or secondar explosions can be caused by the accumulation of dust, e.g floors and ledges.	
Special protective equipment for fire-fighters	: Wear self-contained breathing apparatus for firefighting if necessary.	
Further information	: Standard procedure for chemical fires. Use extinguishing measures that are appropriate to local circumstances and t surrounding environment.	he
Fire and explosion protection	: Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is potential dust explosion hazard. Provide appropriate exha- ventilation at places where dust is formed.	а
Hazardous decomposition products	: No data available.	
TION 6: Accidental release	neasures	
Personal precautions	: Avoid dust formation.	
Environmental precautions	: If the product contaminates rivers and lakes or drains inforr respective authorities.	n
Methods for cleaning up	 Pick up and arrange disposal without creating dust. Sweep and shovel. Keep in suitable, closed containers for disposa 	
Additional advice	: Special exposure hazards arising from the substance or mixture itself, combustion products, resulting gases	
Number:100000067137	3/11	

	SAFETY DATA SHEE
lowzan® Biopolymer	
ersion 2.4	Revision Date 2023-04-2
	Contaminated surfaces will be extremely slippery. Avoid spillage on floor as the product can become very slippery when wet. Sweep up to prevent slipping hazard. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration.
ECTION 7: Handling and stora	ge
Handling	
Advice on safe handling	: For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Electrostatic charge may accumulate and create a hazardous condition when handling this material. To minimize this hazard, bonding and grounding may be necessary, but may not by themselves be sufficient.
Advice on protection against fire and explosion	: Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Provide appropriate exhaust ventilation at places where dust is formed.
Storage	
Requirements for storage areas and containers	: Electrical installations / working materials must comply with the technological safety standards.
Advice on common storage	: No materials to be especially mentioned.
Use	: Drilling Fluid Additive
ECTION 8: Exposure controls/	personal protection

υs

05				
Components	Basis	Value	Control parameters	Note
Saturated monocarboxylic acid, calcium salt	ACGIH	TWA	10 mg/m3	A4, Inhalable particulate matter
	ACGIH	TWA	3 mg/m3	A4, Respirable particulate matter

A4 Not classifiable as a human carcinogen

Engineering measures

Adequate ventilation to control airborned concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

Respiratory protection

: If ventilation or other engineering controls are not adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure, a supplied-air NIOSH approved

SDS Number:100000067137

lowzan® Biopolyme	
ersion 2.4	Revision Date 2023-04-
	respirator may be appropriate. If exposure to harmful levels of airborne material may occur, a NIOSH approved respirator that provides protection may be appropriate, such as:. Air-Purifying Respirator for Dusts and Mists / P100. A positive pressure, air- supplying respirator may be appropriate if there is potential for uncontrolled release, aerosolization, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.
Hand protection	: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
Eye protection	: Eye wash bottle with pure water. Safety glasses.
Skin and body protection	: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate:. Protective suit. Safety shoes.

Flowzan® Biopolymer

SAFETY DATA SHEET

Version 2.4

Revision Date 2023-04-20

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Contaminated packaging

: Empty containers should be taken to an approved waste handling site for recycling or disposal.

SECTION 14: Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

US DOT (UNITED STATES DEPARTMENT OF TRANSPORTATION)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

IMO / IMDG (INTERNATIONAL MARITIME DANGEROUS GOODS)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

IATA (INTERNATIONAL AIR TRANSPORT ASSOCIATION)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

ADR (AGREEMENT ON DANGEROUS GOODS BY ROAD (EUROPE))

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

RID (REGULATIONS CONCERNING THE INTERNATIONAL TRANSPORT OF DANGEROUS GOODS (EUROPE))

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

ADN (EUROPEAN AGREEMENT CONCERNING THE INTERNATIONAL CARRIAGE OF DANGEROUS GOODS BY INLAND WATERWAYS)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

Maritime transport in bulk according to IMO instruments
