<b>SECTION 2: Hazards identificat</b>	ion		
	ance or mixture fied in accordance with the hazard comm els contain all the information as required		
Classification	:		
Not a hazardous substance c	or mixture.		
Labeling			
Not a hazardous substance or mixture.			
Carcinogenicity:			
IARC	No ingredient of this product present a equal to 0.1% is identified as probable human carcinogen by IARC.		

NTP

numan carcinogen by IARC. No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

#### **SECTION 3: Composition/information on ingredients**

Synonyms	: No	ne Established
----------	------	----------------

Molecular formula : Mixture

Contains no hazardous ingredients according to GHS.

### **SECTION 4: First aid measures**

General advice : No hazards which require special first aid measures.

SDS Number:100000014484

ACEL® Liquid LTR	SAFETY DATA SH
sion 1.5	Revision Date 2023-1
If inhaled	: If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.
In case of eye contact	: Remove contact lenses. Protect unharmed eye. If eye irritation persists, consult a specialist.
If swallowed	: Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.
TION 5: Firefighting measu	res
Flash point	: Not applicable
Autoignition temperature	: No data available
Special protective equipment for fire-fighters	: Wear self-contained breathing apparatus for firefighting if necessary.
Further information	: Standard procedure for chemical fires. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Fire and explosion protection	: Normal measures for preventive fire protection.
Hazardous decomposition products	: Carbon oxides. Sulfur oxides.
TION 6: Accidental release	measures
Environmental precautions	: If the product contaminates rivers and lakes or drains inform respective authorities.
Methods for cleaning up	: Wipe up with absorbent material (e.g. cloth, fleece). Keep in suitable, closed containers for disposal.
TION 7: Handling and stora	ge
Handling	
Advice on safe handling	: For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area.
Advice on protection against fire and explosion	: Normal measures for preventive fire protection.
Storage	
Requirements for storage areas and containers	: Electrical installations / working materials must comply with the technological safety standards.
Advice on common storage	: No materials to be especially mentioned.

Version 1.5

Use

: Cement Additive

Revision Date 2023-10-18

#### **SECTION 8: Exposure controls/personal protection**

#### **Engineering measures**

Adequate ventilation to control airborned concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

#### Personal protective equipment

Respiratory protection	<ul> <li>If ventilation or other engineering controls are not adequent maintain minimal oxygen content of 19.5% by volume unormal atmospheric pressure, a supplied-air NIOSH apprespirator may be appropriate.</li> </ul>	nder
Hand protection	The suitability for a specific workplace should be discuss with the producers of the protective gloves. Please obs the instructions regarding permeability and breakthroug which are provided by the supplier of the gloves. Also ta consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, a contact time. Gloves should be discarded and replaced is any indication of degradation or chemical breakthroug	erve h time ake into the Ind the I if there
Eye protection	: Eye wash bottle with pure water. Tightly fitting safety g	oggles.
Skin and body protection	Choose body protection in relation to its type, to the concentration and amount of dangerous substances, ar specific work-place.	nd to the
Hygiene measures	: General industrial hygiene practice.	

#### **SECTION 9: Physical and chemical properties**

Information on basic physic	Information on basic physical and chemical properties				
Appearance					
Form Physical state Color Odor	: liquid : liquid : Brown : Slight				
Safety data					
Flash point	: Not applicable				
Lower explosion limit	: No data available				
Upper explosion limit	: No data available				
Oxidizing properties	: No				
SDS Number:100000014484	4/10				

Version 1.5

Number:100000014484		
Other data	: No decomposition if stored and applied as directed.	
Materials to avoid Hazardous decomposition products	<ul> <li>Avoid contact with strong oxidizing agents.</li> <li>Carbon oxides Sulfur oxides</li> </ul>	
Conditions to avoid	: No data available.	
Hazardous reactions	: Further information: Stable under recommended storage conditions., No hazards to be specially mentioned.	
Possibility of hazardous rea	ctions	
	anticipated storage and handling conditions of temperature and pressure.	-
Chemical stability	: This material is considered stable under normal ambient a	nd
Reactivity	: Stable at normal ambient temperature and pressure.	
TION 10: Stability and reacti	rity	
Evaporation rate	: No data available	
Relative vapor density	: Not applicable	
Viscosity, kinematic	: No data available	
Viscosity, dynamic	: No data available	
Partition coefficient: n- octanol/water	: No data available	
Water solubility	: Completely Soluble	
Relative density	: 1.17	
Vapor pressure	: No data available
