

SCENTINEL® S-20 Gas Odorant

Version 2.3

Revision Date 2023-10-17

According to Regulation (EC) No. 1907/2006, Regulation (EC) No. 2020/878

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Product information

Product Name	: SCENTINEL® S-20 Gas Odorant
Material	: 1096889, 1098465, 1024714, 1024715, 1024716, 1024722, 1024719, 1024718, 1024717, 1024713, 1024721, 1033064,
	1024720

EC-No.Registration number

Chemical name	CAS-No. EC-No. Index No.	Legal Entity Registration number
t-Butyl Mercaptan	75-66-1 200-890-2	Chevron Phillips Chemicals International NV 01-2119491288-26-0000

1.2

Relevant identified uses of the substance or mixture and uses advised against

Relevant Identified Uses Supported	:	Manufacture Distribution Formulation Use as an intermediate Injection as odorant in fuels – industrial
---------------------------------------	---	--

1.3

Details of the supplier of the safety data sheet

Company	 Chevron Phillips Chemical Company LP Specialty Chemicals 10001 Six Pines Drive The Woodlands, TX 77380

Local

:	Chevron Phillips Chemicals International N.V.
	Airport Plaza (Stockholm Building)
	Leonardo Da Vincilaan 19
	1831 Diegem
	Belgium

SDS Number:100000013388

Version 2.3

Be aware that the stenching chemical added to gas to make it detectable may not warn of a gas leak or the presence of propane or natural gas to all persons in every instance.

Instances where the odorant in an odorized gas may be undetectable include:

• Odor intensity may fade or be eliminated for a variety of chemical and physical causes, including the oxidation of rusting pipes, adsorption into or sticking onto the interior of pipes or appliances, or absorption into liquids.

· Contact with soil in underground leaks may de-odorize or remove odorant from the gas.

• Some people have a diminished ability, or inability to smell the stench. Factors that negatively affect a person's sense of smell include age, gender, medical conditions, and alcohol/tobacco usage.

• The stench of odorized gas may not awaken sleeping persons.

• Other odors may mask or hide the stench.

• Exposure to the odor for even a short period of time, may cause nasal fatigue, where a person can no longer smell the stench.

Gas detectors listed by the Underwriters Laboratories (UL) can be used as an extra measure of safety for detecting gas leaks, especially under conditions where the odorant alone may not provide an adequate warning. Gas detectors emit a loud, shrill sound when gas is present and do not depend on sense of smell. Because the odor intensity can fade or people may have problems with their sense of smell, we recommend installing, per manufacturer's instructions, one or more combustible gas detectors, in suitable locations to ensure adequate coverage to detect gas leaks.

Educate yourself, your employees, and your customers with the content of this warning and other important facts associated with the so-called "odor-fade phenomenon."

SECTION 2: Hazards identification

2.1

Classification of the substance or mixture REGULATION (EC) No 1272/2008

Flammable liquids, Category 2

Eye irritation, Category 2

Hazard pictograms

Signal Word

Skin sensitization, Category 1

Long-term (chronic) aquatic hazard, Category 2

H225:
Highly flammable liquid and vapor.
H319:
Causes serious eye irritation.
H317:
May cause an allergic skin reaction.
H411:
Toxic to aquatic life with long lasting effects.

2.2

Labeling (REGULATION (EC) No 1272/2008)

Hazard Statements	:	H225 H317 H319 H411	Highly flammable liquid and vapor. May cause an allergic skin reaction. Causes serious eye irritation. Toxic to aquatic life with long lasting effects.
Precautionary Statements	:	Prevention: P210	Keep away from heat, hot surfaces, sparks,

			SAFETY DATA SHEET
	ENTINEL® S-20 Gas	s C	
Ver	sion 2.3		Revision Date 2023-10-17
	For the full text of the H-State	eme	ents mentioned in this Section, see Section 16.
SEC	CTION 4: First aid measures		
4.1			
	Description of first-aid mea	su	res
	General advice	:	Move out of dangerous area. Show this material safety data sheet to the doctor in attendance. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.
	If inhaled	:	If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.
	In case of skin contact	:	If skin irritation persists, call a physician. If on skin, rinse well with water. If on clothes, remove clothes.
	In case of eye contact	:	Immediately flush eye(s) with plenty of water. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.
	If swallowed	:	Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.
4.2	Most important symptoms a Notes to physician	and	effects, both acute and delayed
	Symptoms	:	No data available.
4.3	Risks Indication of any immediate	: • m	No data available. edical attention and special treatment needed
	Treatment	:	No data available.
SEC	CTION 5: Firefighting measu	res	
	Flash point	:	<-18°C (<0°F) estimated
	Autoignition temperature	:	No data available
5.1	Extinguishing media		
	Suitable extinguishing media	:	Alcohol-resistant foam. Carbon dioxide (CO2). Dry chemical.
	Unsuitable extinguishing media	:	High volume water jet.
5.2 5.3	Special hazards arising fro Specific hazards during fire fighting		he substance or mixture Do not allow run-off from fire fighting to enter drains or water courses.
SDS	S Number:100000013388		5/19

SCENTINEL® S-20 Gas Odorant

Version	23
version	2.3

Ver	sion 2.3		Revision Date 2023-10-17
	Advice for firefighters Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.
	Further information	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.
	Fire and explosion protection	:	Do not spray on a naked flame or any incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.
	Hazardous decomposition products	:	Carbon oxides. Sulfur oxides.
SEC	TION 6: Accidental release	me	asures
6.1	Personal precautions, prote	ecti	ve equipment and emergency procedures
	Personal precautions	:	Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.
6.2	Environmental precautions		
	Environmental precautions	:	Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
6.3	Methods and materials for of Methods for cleaning up	cor :	Atainment and cleaning up Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).
	Reference to other sections	5	

Reference to other sections : For personal protection see section 8. For disposal considerations see section 13.

SECTION 7: Handling and storage

7.1

Precautions for safe handling Handling Advice on safe handling : Avoid formation of aerosol. Do not breathe vapors/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see SDS Number:100000013388 6/19

Version 2.3

Revision Date 2023-10-17

Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

Respiratory protection	:	If ventilation or other engineering controls are not adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure, a supplied-air NIOSH approved respirator may be appropriate. If exposure to harmful levels of airborne material may occur, a NIOSH approved respirator that provides protection may be appropriate, such as:. Air-Purifying Respirator for Organic Vapors. A positive pressure, air- supplying respirator may be appropriate if there is potential for uncontrolled release, aerosolization, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.
Hand protection	:	The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
Eye protection	:	Eye wash bottle with pure water. Tightly fitting safety goggles.
Skin and body protection	:	Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate:. Remove and wash contaminated clothing before re-use. Skin should be washed after contact. Footwear protecting against chemicals.
Hygiene measures	:	When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

SCENTINEL® S-20 Gas Odorant

Version 2.3	Revision Date 2023-10-17
	EbC50: 310 mg/l Exposure time: 72 h Species: Pseudokirchneriella subcapitata (green algae) Method: OECD Test Guideline 201
Toxicity to bacteria	
Methyl Ethyl Sulfide	: EC50: > 1.000 mg/l Exposure time: 3 h Species: Bacteria Respiration inhibition Method: OECD Test Guideline 209
12.2 Persistence and degradabi	lity
Biodegradability	
t-Butyl Mercaptan	 aerobic Result: Not readily biodegradable. 6 % Testing period: 63 d Method: OECD Test Guideline 301
Methyl Ethyl Sulfide	: aerobic 41 % Testing period: 28 d Method: OECD Test Guideline 301D According to the results of tests of biodegradability this product is not readily biodegradable.
	: aerobic 92 % Testing period: 31 d Method: OECD Test Guideline 301D Expected to be inherently biodegradable.
12.3 Bioaccumulative potential	
Bioaccumulation	
t-Butyl Mercaptan	: Bioconcentration factor (BCF): 12 Method: QSAR modeled data This material is not expected to bioaccumulate.
Methyl Ethyl Sulfide	: This material is not expected to bioaccumulate.
12.4 Mobility in soil	
Mobility	
t-Butyl Mercaptan	: Method: Calculation, Mackay Level III Fugacity Model The product will be dispersed amongst the various environmental compartments (soil/ water/ air).
SDS Number:100000013388	14/19

		SAFETY DATA SHEET
SCENTINEL	.® S-20 Gas (Odorant
Version 2.3		Revision Date 2023-10-17
Methyl Ethyl	Sulfide	: The product evaporates readily.
12.5		
	PBT and vPvB ass BT assessment	 This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.
12.6	lie wynatio or onwene orti	
Endocrine d	disrupting properti	les
Endocrine di properties	srupting	: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
12.7		
Other adver	se effects	
Additional ec information	cological	: Toxic to aquatic life with long lasting effects.
12.8 Additional I	nformation	
Ecotoxicolo	ogy Assessment	
Short-term (a	acute) aquatic haza	ard
t-Butyl Merca		: Toxic to aquatic life.
Methyl Ethyl	Sulfide	: Harmful to aquatic life.
Lona-term (c	hronic) aquatic haz	zard
t-Butyl Merca		: Toxic to aquatic life with long lasting effects.
Methyl Ethyl	Sulfide	: Harmful to aquatic life with long lasting effects.
SECTION 13: Dis	sposal considerati	ions
42.4	-	

13.1

Waste treatment methods

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product

: The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

SDS Number:100000013388

Revision Date 2023-10-17

Contaminated packaging	: Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.
SECTION 14: Transport informa	ition

14.1 - 14.7

Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.
