Hand protection	: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if the is any indication of degradation or chemical breakthrough.	0
Eye protection	: Eye wash bottle with pure water. Tightly fitting safety goggles	•
Skin and body protection	: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to th specific work-place. Wear as appropriate:. Protective suit. Safety shoes.	ıe
Hygiene measures	: When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
