SAFETY DATA SHEET

Diacel® HE® Polymer 400

Version 1.14

Revision Date 2025-02-21

According to Regulation (EC) No. 1907/2006, Regulation (EC) No. 2020/878 SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1

	Product information	
	Product Name Material EC-No.Registration nu	: Diacel® HE® Polymer 400 : 1104094 Imber
	Chemical name	CAS-No. Legal Entity EC-No. Registration number Index No.
	2-Acrylamido-2- Methylpropane Sulfonic Acid, Sodium Salt	5165-97-9225-948-4Chevron Phillips Chemicals International NV 01-2119495270-39-0016
	2-Pyrrolidinone, 1- ethenyl-	88-12-0201-800-4Chevron Phillips Chemicals International NV613-168-00-001-2119498301-39-XXXX
1.2		es of the substance or mixture and uses advised against
4 4	Relevant Identified Use Supported	s : Rheology Modifier
1.3	Details of the supplier	of the safety data sheet
	Company	: Chevron Phillips Chemical Company LP 10001 Six Pines Drive The Woodlands, TX 77380
	Local	 Chevron Phillips Chemicals International N.V. Airport Plaza (Stockholm Building) Leonardo Da Vincilaan 19 1831 Diegem Belgium

Ve	rsion 1.14	Revision Date 2025-02-21
	Classification of the subs REGULATION (EC) No 127	
	Not a hazardous substance	mixture.
2.2	Labeling (REGULATION (;) No 1272/2008)
	Not a hazardous substance	mixture.
2.3	Other hazards Results of PBT and vPvB assessment	: This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.
	Endocrine disrupting properties	: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
SEC	CTION 3: Composition/info	ation on ingredients
-	- 3.2 ostance or Mixture Synonyms	High Temperature Polymer
	Contains no hazardous ingr	ients according to GHS. :
	Remarks	: Contains no hazardous ingredients according to GHS.
SE(CTION 4: First aid measure	
	CHON 4. First ald measures	
4.1	Description of first-aid me	sures
	General advice	: No hazards which require special first aid measures.
	If inhaled	: If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.
	In case of eye contact	: Remove contact lenses. Protect unharmed eye. If eye irritation persists, consult a specialist.
	If swallowed	: Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.

4.2	Notes to physician	nd effects, both acute and delayed
		3/12

Dia	acel® HE® Polymer	40	SAFETY DATA SHEET
Ver	sion 1.14		Revision Date 2025-02-2
	Symptoms	:	No data available.
4.3	Risks Indication of any immediate	: • m	No data available. edical attention and special treatment needed
	Treatment	:	No data available.
SEC	TION 5: Firefighting measu	res	
	Flash point	:	Not applicable
	Autoignition temperature	:	No data available
5.1	Extinguishing media		
	Unsuitable extinguishing media	:	High volume water jet.
5.2	Special hazards arising fro Specific hazards during fire fighting		
5.3	Advice for firefighters Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.
	Further information	:	Standard procedure for chemical fires. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
	Fire and explosion protection	:	Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Provide appropriate exhaust ventilation at places where dust is formed.
SEC	TION 6: Accidental release	me	asures
6.1	Personal precautions, prot	ecti	ve equipment and emergency procedures
	Personal precautions	:	Avoid dust formation.
5.2	Environmental precautions	;	
	Environmental precautions	:	No special environmental precautions required.
6.3	Methods and materials for Methods for cleaning up		tainment and cleaning up Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed containers for disposal.
	Additional advice	:	Contaminated surfaces will be extremely slippery. Avoid spillage on floor as the product can become very slippery when
000	Number:100000066570		4/12

	acel® HE® Polymer 40	SAFETY DATA SHEET
Ver	rsion 1.14	Revision Date 2025-02-2
		wet. Sweep up to prevent slipping hazard. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).
6.4	Reference to other sections	
	Reference to other sections :	For personal protection see section 8. For disposal considerations see section 13.
SEC	CTION 7: Handling and storage	
7.1	Precautions for safe handling Handling	
	Advice on safe handling :	For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area.
	Advice on protection : against fire and explosion	Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Provide appropriate exhaust ventilation at places where dust is formed.
7.2	Conditions for safe storage, i	ncluding any incompatibilities
	Storage	
	Requirements for storage : areas and containers	Electrical installations / working materials must comply with the technological safety standards.
	Advice on common storage :	No materials to be especially mentioned.
SEC	CTION 8: Exposure controls/pe	rsonal protection
5L(
8.2	Exposure controls Engineering measures	
	Consider the potential hazards of activities, and other substances personal protective equipment. exposure to harmful levels of the recommended. The user should	airborned concentrations below the exposure guidelines/limits. of this material (see Section 2), applicable exposure limits, job in the work place when designing engineering controls and selecting If engineering controls or work practices are not adequate to preven is material, the personal protective equipment listed below is d read and understand all instructions and limitations supplied with is usually provided for a limited time or under certain circumstances.
	Personal protective equipmer	nt
	Respiratory protection :	If ventilation or other engineering controls are not adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure, a supplied-air NIOSH approved respirator may be appropriate. If exposure to harmful levels of

acel® HE® Polymer sion 1.14		Revision Date 2025-02
3011 1.14		airborne material may occur, a NIOSH approved respirator that provides protection may be appropriate, such as:. Air-Purifying Respirator for Dusts and Mists / P100. A positive pressure, air- supplying respirator may be appropriate if there is potential for uncontrolled release, aerosolization, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.
Hand protection	:	The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
Eye protection	:	Eye wash bottle with pure water. Safety glasses.
Skin and body protection	:	Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate:. Protective suit. Safety shoes.
Hygiene measures	:	General industrial hygiene practice.

Version 1.14

Revision Date 2025-02-21

Pour point	:	No data available
Boiling point/boiling range	:	No data available
Vapor pressure	:	No data available
Relative density	:	1,44
Density	:	No data available
Water solubility	:	soluble
Partition coefficient: n-	:	Pow: < 3
Viscosity, kinematic	:	No data available
Relative vapor density	:	No data available
Evaporation rate	:	No data available

SECTION 10: Stability and reactivity

10.1

	Reactivity	:	Stable at normal ambient temperature and pressure.
10.	2 Chemical stability	:	This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
10.	3		
	Possibility of hazardous read	ctio	ons
	Hazardous reactions	:	Further information: Stable under recommended storage conditions., No hazards to be specially mentioned.
10.	4 Conditions to avoid	:	No data available.
10.	5 Materials to avoid	:	No data available.
	Thermal decomposition	:	No data available
10.	6		
	Other data	:	No decomposition if stored and applied as directed.

02-21

Version 1.14		Revision Date 2025-02
SECTION 11: Toxico	ological information	tion
11.1 Information on	toxicological ef	fects
Diacel® HE® Po Skin irritation		No skin irritation.
Diacel® HE® Po Eye irritation 11.2	•	No eye irritation.
Information on	other hazards	
Diacel® HE® Po Further informa	tion :	The product contains no substances classified as hazardous to health in concentrations which should be taken into account. The substance/mixture does not contain components
properties		considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
SECTION 12: Ecolog	gical information	n
12.1 Toxicity		
Ecotoxicity effect	cts	
Toxicity to fish	:	LC50: > 1.800 mg/l Exposure time: 96 h Species: Scophthalmus maximus (Flatfish, Flounder) static test Method: PARCOM Protocol Part B
Toxicity to daph other aquatic in		LC50: 599 mg/l Exposure time: 48 h Species: Acartia tonsa (Marine Copepod) static test Method: ISO TC147/SC5/WG2
Toxicity to alga	e :	EC50: 2.693 mg/l Exposure time: 72 h Species: Skeletonema costatum (marine diatom) static test Method: ISO 10253
12.2 Persistence and	d degradability	
Biodegradability	:	This material is not expected to be readily biodegradable.
12.3 Bioaccumulativ	a notantial	

Bioaccumulative potential Elimination information (persistence and degradability)

SDS Number:100000066570

	SAFETY DATA SHEE
Diacel® HE® Polymer Version 1.14	400 Revision Date 2025-02-2
Bioaccumulation	: Accumulation in aquatic organisms is unlikely. The polymer is too large to be bioavailable.
2.4 Mobility in soil	
Mobility	: No data available
2.5	
Results of PBT and vPvB a Results of PBT assessment	
2.6	
Endocrine disrupting prop Endocrine disrupting properties	 The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
2.7 Other adverse effects	
Additional ecological information	: This material is not expected to be harmful to aquatic organisms.
2.8 Additional Information	
Ecotoxicology Assessmer	nt
Short-term (acute) aquatic hazard	: This material is not expected to be harmful to aquatic organisms.
Long-term (chronic) aquatic hazard	: This material is not expected to be harmful to aquatic organisms.
SECTION 13: Disposal conside	erations
3.1 Waste treatment methods The information in this SDS	pertains only to the product as shipped.
may meet the criteria of a ha other State and local regulat regulated components may	d purpose or recycle if possible. This material, if it must be discarded, azardous waste as defined by US EPA under RCRA (40 CFR 261) or tions. Measurement of certain physical properties and analysis for be necessary to make a correct determination. If this material is aste, federal law requires disposal at a licensed hazardous waste

Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal.

SDS Number:100000066570

SECTION 14: Transport information

14.1 - 14.7

Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

US DOT (UNITED STATES DEPARTMENT OF TRANSPORTATION) NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

IMO / IMDG (INTERNATIONAL MARITIME DANGEROUS GOODS)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

IATA (INTERNATIONAL AIR TRANSPORT ASSOCIATION)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

ADR (AGREEMENT ON DANGEROUS GOODS BY ROAD (EUROPE)) NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

RID (REGULATIONS CONCERNING THE INTERNATIONAL TRANSPORT OF DANGEROUS GOODS (EUROPE))

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

ADN (EUROPEAN AGREEMENT CONCERNING THE INTERNATIONAL CARRIAGE OF DANGEROUS GOODS BY INLAND WATERWAYS)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

Maritime transport in bulk according to IMO instruments

SECTION 15: Regulatory information
