<b>SECTION 2: Hazards identifica</b>	tion
	<ul> <li>tance or mixture</li> <li>sified in accordance with the hazard communication standard 29 CFR</li> <li>bels contain all the information as required by the standard.</li> <li>: Combustible dust</li> </ul>
Labeling	
Signal Word	: Warning
Hazard Statements	: May form combustible dust concentrations in air.
Potential Health Effects	
Physical Hazards	: Mechanical processing may form combustible dust concentrations in air and thermal processing at elevated temperatures may generate simple hydrocarbons and carbon oxides.
Carcinogenicity:	
IARC	No ingredient of this product present at levels greater than or
NTP	equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.
SECTION 3: Composition/infor	mation on ingredients
Synonyms	: High Temperature Polymer

SDS Number:100000066569

2/11

Version 2.4

Revision Date 2025-05-14

Component	CAS-No.	Weight %	
Sodium salt of sulfonated acrylamide and vinyl lactam	Proprietary	100	

### **SECTION 4: First aid measures**

General advice	:	No hazards which require special first aid measures.
If inhaled	:	If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.
In case of eye contact	:	Remove contact lenses. Protect unharmed eye. If eye irritation persists, consult a specialist.
If swallowed	:	Keep respiratory tract clear. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.

### SECTION 5: Firefighting measures

Flash point	:	Not applicable
Autoignition temperature	:	No data available
Unsuitable extinguishing media	:	High volume water jet.
Specific hazards during fire fighting	:	Risks of ignition followed by flame propagation or secondary explosions can be caused by the accumulation of dust, e.g. on floors and ledges.
Special protective equipment for fire-fighters	:	Wear self-contained breathing apparatus for firefighting if necessary.
Further information	:	Standard procedure for chemical fires. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Fire and explosion protection	:	Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Provide appropriate exhaust ventilation at places where dust is formed.

Personal precautions	:	Avoid dust formation.
Environmental precautions	:	No special environmental precautions required.
Methods for cleaning up	:	Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed containers for disposal.
SDS Number:100000066569		3/11

iscal® D Polymer		
sion 2.4		Revision Date 2025-05
Additional advice	:	Contaminated surfaces will be extremely slippery. Avoid spillage on floor as the product can become very slippery when wet. Sweep up to prevent slipping hazard. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).
CTION 7: Handling and stora	ge	
Handling		
Advice on safe handling	:	For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area.
Advice on protection against fire and explosion	:	Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Provide appropriate exhaust ventilation at places where dust is formed.
Storage		
Requirements for storage areas and containers	:	Electrical installations / working materials must comply with the technological safety standards.
Advice on common storage	:	No materials to be especially mentioned.
Use	:	Drilling Fluid Additive
CTION 8: Exposure controls/	per	sonal protection
Engineering measures		
	ds o	rborned concentrations below the exposure guidelines/limits. f this material (see Section 2), applicable exposure limits, job

Hand protection	: The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough the which are provided by the supplier of the gloves. Also take consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and contact time. Gloves should be discarded and replaced if is any indication of degradation or chemical breakthrough.	ve ime intc intc the there
Eye protection	: Eye wash bottle with pure water. Safety glasses.	
Skin and body protection	: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and t specific work-place. Wear as appropriate:. Protective suit Safety shoes.	
Hygiene measures	: General industrial hygiene practice.	
TION 9: Physical and chen	cal properties

Relative vapor density	: No data available	
Evaporation rate	: No data available	

### SECTION 10: Stability and reactivity

Reactivity	: Stable at normal ambient temperature and pressure.
Chemical stability	: This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
Possibility of hazardous re	actions
Hazardous reactions	: Further information: Stable under recommended storage conditions., No hazards to be specially mentioned.
Conditions to avoid	: No data available.
Materials to avoid	: No data available.
Thermal decomposition	: No data available
Other data	: No decomposition if stored and applied as directed.

### SECTION 11: Toxicological information

Driscal® D Polymer Skin irritation	: No skin irritation.
Driscal® D Polymer Eye irritation	: No eye irritation.
Driscal® D Polymer Further information	: The product contains no substances classified as hazardous to health in concentrations which should be taken into

SAFETY DATA SHEET

Revision Date 2025-05-14

TION 12, Ecological informa	account.
TION 12: Ecological informa	tion
cotoxicity effects	
Toxicity to fish	<ul> <li>LC50: &gt; 1,800 mg/l Exposure time: 96 h Species: Scophthalmus maximus (Flatfish, Flounder) static test Method: PARCOM Protocol Part B</li> </ul>
Toxicity to daphnia and other aquatic invertebrates	: LC50: 599 mg/l Exposure time: 48 h Species: Acartia tonsa (Marine Copepod) static test Method: ISO TC147/SC5/WG2
Toxicity to algae	: EC50: 2,693 mg/l Exposure time: 72 h Species: Skeletonema costatum (marine diatom) static test Method: ISO 10253
Biodegradability	: This material is not expected to be readily biodegradable.
Elimination information (persis	stence and degradability)
Bioaccumulation	: Accumulation in aquatic organisms is unlikely. The polymer is too large to be bioavailable.
Mobility	: No data available
Additional ecological information	: This material is not expected to be harmful to aquatic organisms.
Ecotoxicology Assessment	
Short-term (acute) aquatic hazard	: This material is not expected to be harmful to aquatic organisms.
Long-term (chronic) aquatic hazard	: This material is not expected to be harmful to aquatic organisms.
TION 13: Disposal considera	ations
The information in this SDS po	ertains only to the product as shipped.
may meet the criteria of a haz other State and local regulatic regulated components may be	purpose or recycle if possible. This material, if it must be discarded, ardous waste as defined by US EPA under RCRA (40 CFR 261) or ons. Measurement of certain physical properties and analysis for e necessary to make a correct determination. If this material is ste, federal law requires disposal at a licensed hazardous waste
	: Empty containers should be taken to an approved waste
Contaminated packaging	. Lingly containers should be taken to an approved waste

SAFETY DATA SHEET

handling site for recycling or disposal.

#### **SECTION 14: Transport information**

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

#### US DOT (UNITED STATES DEPARTMENT OF TRANSPORTATION) NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

#### IMO / IMDG (INTERNATIONAL MARITIME DANGEROUS GOODS)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

### IATA (INTERNATIONAL AIR TRANSPORT ASSOCIATION)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

ADR (AGREEMENT ON DANGEROUS GOODS BY ROAD (EUROPE)) NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

# RID (REGULATIONS CONCERNING THE INTERNATIONAL TRANSPORT OF DANGEROUS GOODS (EUROPE))

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

ADN (EUROPEAN AGREEMENT CONCERNING THE INTERNATIONAL CARRIAGE OF DANGEROUS GOODS BY INLAND WATERWAYS)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

Maritime transport in bulk according to IMO instruments

#### SAFETY DATA SHEET

Version 2.4

Revision Date 2025-05-14

IC50	Inhibition Concentration 50%	SARA	Superfund Amendments and Reauthorization Act.
IARC	International Agency for Research on Cancer	TLV	Threshold Limit Value
IECSC	Inventory of Existing Chemical Substances in China	TWA	Time Weighted Average
ENCS	Japan, Inventory of Existing and New Chemical Substances	TSCA	Toxic Substance Control Act
KECI	Korea, Existing Chemical Inventory	UVCB	Unknown or Variable Composition, Complex Reaction Products, and Biological Materials
<=	Less Than or Equal To	WHMIS	Workplace Hazardous Materials Information System
LC50	Lethal Concentration 50%	ATE	Acute toxicity estimate
