protection

Hazardous decomposition : Carbon oxides. products

#### **SECTION 6: Accidental release measures**

#### 6.1

Personal precautions, protective equipment and emergency procedures Personal precautions : Use personal protective equipment. Ensure adequate ventilation. Evacuate personnel to safe areas. Material can create slippery conditions. 6.2 **Environmental precautions** Environmental precautions : No special environmental precautions required. 6.3 Methods and materials for containment and cleaning up Methods for cleaning up : Wipe up with absorbent material (e.g. cloth, fleece). Keep in suitable, closed containers for disposal. 6.4 Reference to other sections Reference to other sections : For personal protection see section 8. For disposal considerations see section 13. A quantitative risk assessment is not required for the environment. A quantitative risk assessment is not required for human health.

#### **SECTION 7: Handling and storage**

#### 7.1

# Precautions for safe handling Handling

Advice on safe handling	:	For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area.
Advice on protection against fire and explosion	:	Normal measures for preventive fire protection.

#### 7.2

Conditions for safe storage, including any incompatibilities

Storage

Requirements for storage areas and containers	:	Electrical installations / working materials must comply with the technological safety standards.
Advice on common storage	:	No materials to be especially mentioned.

#### **SECTION 8: Exposure controls/personal protection**

8.1

Control parameters

Hydrogenated	CH SUVA	MAK-Wert	5 mg/m3	Staub

SSc Eine Schädigung der Leibesfrucht braucht bei Einhaltung des MAK-Wertes nicht befürchtet zu werden.

#### 8.2

#### Exposure controls Engineering measures

Adequate ventilation to control airborned concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

#### Personal protective equipment

Respiratory protection	:	If ventilation or other engineering controls are not adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure, a supplied-air NIOSH approved respirator may be appropriate.
Hand protection	:	The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
Eye protection	:	Eye wash bottle with pure water. Tightly fitting safety goggles.
Skin and body protection	:	Choose body protection according to the amount and concentration of the substance and the task performed at the work place. Appropriate PPE may include:. Lightweight protective clothing.
Hygiene measures	:	General industrial hygiene practice.

Revision Date 2025-06-16

SECTION 10: Stability and reacti	ivity
10.1	
Depativity	. Stable at normal ambient temperature and pressure
Reactivity	: Stable at normal ambient temperature and pressure.
10.0	
10.2	
Chemical stability	: This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
10.3	
Possibility of hazardous rea	actions
Hazardous reactions	: Further information: Stable under recommended storage conditions., No hazards to be specially mentioned.
10.4 Conditions to avoid	: No data available.
10.5 Materials to avoid	: No data available.
10.6	. NO Gala available.
Hazardous decomposition products	: Carbon oxides
Other data	: No decomposition if stored and applied as directed.
SECTION 11: Toxicological infor	mation
11.1	
Information on toxicologica	l effects
Synfluid® PAO 10 cSt Acute oral toxicity	: LD50 Oral: > 5.000 mg/kg Species: Rat
Synfluid® PAO 10 cSt Acute inhalation toxicity	: LC50: > 5,2 mg/l Exposure time: 4 h Species: Rat Test atmosphere: dust/mist
Synfluid® PAO 10 cSt Acute dermal toxicity	: LD50: > 2.000 mg/kg Species: Rabbit
Synfluid® PAO 10 cSt Skin irritation	: No skin irritation
SDS Number:100000100615	8/36
020 Number: 100000100013	0,00

# Synfluid® PAO 10 cSt

Version 2.14	Revision Date 2025-06-16
Synfluid® PAO 10 cSt Eye irritation	: No eye irritation
Synfluid® PAO 10 cSt Genotoxicity in vitro	: Remarks: No adverse effects expected, Information given is based on data obtained from similar substances.
Synfluid® PAO 10 cSt Genotoxicity in vivo	: Remarks: No adverse effects expected, Information given is based on data obtained from similar substances.
Synfluid® PAO 10 cSt Carcinogenicity	: Remarks: This information is not available.
Toxicology Assessment	
Synfluid® PAO 10 cSt CMR effects	: Carcinogenicity: Not classifiable as a human carcinogen. Mutagenicity: Animal testing did not show any mutagenic effects. Teratogenicity: no developmental effects Reproductive toxicity: No toxicity to reproduction
11.2 Information on other hazards	S
Synfluid® PAO 10 cSt Further information Endocrine disrupting properties	<ul> <li>No data available.</li> <li>The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.</li> </ul>
SECTION 12: Ecological informat	lion
12.1 Toxicity	
Ecotoxicity effects	
Toxicity to fish	: LL50: > 1.000 mg/l Exposure time: 96 h Species: Oncorhynchus mykiss (rainbow trout)
Toxicity to daphnia and other aquatic invertebrates	: EL50: > 1.000 mg/l Exposure time: 48 h Species: Daphnia magna (Water flea) static test Method: OECD Test Guideline 202
SDS Number:100000100615	9/36

Synfluid® PAO 10 cSt	SAFETY DATA SHEE
Version 2.14	Revision Date 2025-06-10
Toxicity to algae	<ul> <li>NOELR: 1.000 mg/l Exposure time: 72 h Species: Scenedesmus capricornutum (fresh water algae) static test Method: OECD Test Guideline 201</li> </ul>
12.2 Persistence and degradability	/
Biodegradability	: This material is not expected to be readily biodegradable. Expected to be inherently biodegradable.
12.3 Bioaccumulative potential Elimination information (persiste	ence and degradability)
Bioaccumulation	: This material is not expected to bioaccumulate.
12.4 Mobility in soil	
Mobility	: No data available
12.5	
<b>Results of PBT and vPvB ass</b> Results of PBT assessment	<ul> <li>essment</li> <li>This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.</li> </ul>
12.6	
Endocrine disrupting properti Endocrine disrupting properties	<ul> <li>ies</li> <li>The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.</li> </ul>
12.7 Other adverse effects	
information	: No data available
12.8 Additional Information	
Ecotoxicology Assessment	
Short-term (acute) aquatic hazard	: This material is not expected to be harmful to aquatic organisms.
Long-term (chronic) aquatic hazard	: This material is not expected to be harmful to aquatic organisms.
SDS Number:100000100615	10/36

SAFETY DATA SHEET

Version 2.14

Revision Date 2025-06-16

#### **SECTION 13: Disposal considerations**

#### 13.1

#### Waste treatment methods

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Contaminated packaging

: Empty containers should be taken to an approved waste handling site for recycling or disposal.

A quantitative risk assessment is not required for the environment. A quantitative risk assessment is not required for human health.

#### **SECTION 14: Transport information**

#### 14.1 - 14.7

#### Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.

#### US DOT (UNITED STATES DEPARTMENT OF TRANSPORTATION)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

#### IMO / IMDG (INTERNATIONAL MARITIME DANGEROUS GOODS)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

#### IATA (INTERNATIONAL AIR TRANSPORT ASSOCIATION)

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

#### ADR (AGREEMENT ON DANGEROUS GOODS BY ROAD (EUROPE))

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.

# RID (REGULATIONS CONCERNING THE INTERNATIONAL TRANSPORT OF DANGEROUS GOODS (EUROPE))

NOT REGULATED AS A HAZARDOUS MATERIAL OR DANGEROUS GOODS FOR TRANSPORTATION BY THIS AGENCY.
