

Orfom® D8 Depressant

Version 2.8

Revision Date 2026-09-21

according to GB/T 16483 and GB/T 17519

SECTION 1: Identification of the substance/mixture and of the company/undertaking**Product information**

Product Name : Orfom® D8 Depressant
Material : 1123679, 1119972, 1119971, 1116157, 1108014, 1106095,
1106087, 1095798, 1016855, 1016856
Use : Mineral Processing Aide
Company : Chevron Phillips Chemical Company LP
Mining Chemicals
9500 Lakeside Blvd.
The Woodlands, TX 77381

SECTION 2: Hazards identification**Classification of the substance or mixture**

GHS Classification and Labeling: Follow GB 13690, GB 15258 and GB 30000.2 to GB 30000.29 (GHS 2011)

Emergency Overview**Danger**

Form: liquid **Physical state:** liquid **Color:** clear, orange-red **Odor:** Mild

Hazards : May be corrosive to metals. Causes severe skin burns and eye damage. Causes serious eye damage. May be harmful if swallowed and enters airways. Harmful to aquatic life.

Classification

: Corrosive to Metals, Category 1
Skin corrosion/irritation, Category 1
Serious eye damage/eye irritation, Category 1
Aspiration hazard, Category 2
Short-term (acute) aquatic hazard, Category 3

Labeling

Orfom® D8 Depressant

Version 2.8

Revision Date 2026-09-21

Symbol(s)	:	 
Signal Word	:	Danger
Hazard Statements	:	H290: May be corrosive to metals. H305: May be harmful if swallowed and enters airways. H314: Causes severe skin burns and eye damage. H402: Harmful to aquatic life.
Precautionary Statements	:	Prevention: P234: Keep only in original container. P264: Wash skin thoroughly after handling. P273: Avoid release to the environment. P280: Wear protective gloves/ protective clothing/ eye protection/ face protection. Response: P301+P310: IF SWALLOWED: Immediately call a POISON CENTER/doctor. P303 + P361 + P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower. P304+P340+P310: IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER/doctor. P305 + P351 + P338 + P310: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/ doctor. P363: Wash contaminated clothing before reuse. P390: Absorb spillage to prevent material damage. Storage: P405: Store locked up. P406: Store in corrosive resistant container with a resistant inner liner. Disposal: P501: Dispose of contents/ container to an approved waste disposal plant.

SECTION 3: Composition/information on ingredients

Molecular formula : Mixture

Chemical name	CAS-No. / EINECS-No.	Concentration [wt%]
Disodium Carboxymethyltrithiocarbonate	86932-91-4	35 - 45
Sodium Hydroxide	1310-73-2	5

SECTION 4: First aid measures

General advice : Move out of dangerous area. Consult a physician. Show this material safety data sheet to the doctor in attendance. Material

Orfom® D8 Depressant

Version 2.8

Revision Date 2026-09-21

- may produce a serious, potentially fatal pneumonia if swallowed or vomited.
- If inhaled : If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.
- In case of skin contact : Immediate medical treatment is necessary as untreated wounds from corrosion of the skin heal slowly and with difficulty. If on skin, rinse well with water. If on clothes, remove clothes.
- In case of eye contact : Small amounts splashed into eyes can cause irreversible tissue damage and blindness. In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Continue rinsing eyes during transport to hospital. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.
- If swallowed : Clean mouth with water and drink afterwards plenty of water. Keep respiratory tract clear. Never give anything by mouth to an unconscious person. Take victim immediately to hospital.

SECTION 5: Firefighting measures

- Flash point : >93°C (>199°F)
- Autoignition temperature : >400°C (>752°F)
- Unsuitable extinguishing media : High volume water jet.
- Specific hazards during fire fighting : Do not allow run-off from fire fighting to enter drains or water courses.
- Special protective equipment for fire-fighters : Wear self-contained breathing apparatus for firefighting if necessary.
- Further information : Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.
- Fire and explosion protection : Normal measures for preventive fire protection.
- Hazardous decomposition products : Hydrogen Sulfide. Carbon Disulfide.

SECTION 6: Accidental release measures

- Personal precautions : Use personal protective equipment. Ensure adequate ventilation.
- Environmental precautions : Prevent product from entering drains. Prevent further leakage

Orfom® D8 Depressant

Version 2.8

Revision Date 2026-09-21

- or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
- Methods for cleaning up : Neutralize with acid. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal.
- Additional advice : No conditions to be specially mentioned.

SECTION 7: Handling and storage**Handling**

- Advice on safe handling : Avoid formation of aerosol. Avoid direct contact with acids. Do not breathe vapors/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Provide sufficient air exchange and/or exhaust in work rooms. To avoid spills during handling keep bottle on a metal tray. Dispose of rinse water in accordance with local and national regulations. Do not breathe vapors/dust. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. To avoid spills during handling keep bottle on a metal tray. Dispose of rinse water in accordance with local and national regulations.
- Advice on protection against fire and explosion : Normal measures for preventive fire protection.

Storage

- Requirements for storage areas and containers : Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.
- Use : Mineral Processing Aide

SECTION 8: Exposure controls/personal protection**Ingredients with workplace control parameters****CN**

Components	Basis	Value	Control parameters	Note
Sodium Hydroxide	CN OEL	MAC	2 mg/m3	
Carbon disulfide	CN OEL	PC-TWA	5 mg/m3	Skin,
	CN OEL	PC-STEL	10 mg/m3	Skin,
Hydrogen Sulfide	CN OEL	MAC	10 mg/m3	

Skin Skin

Not applicable

Engineering measures

Engineering measures
Adequate ventilation to control airborne concentrations below the exposure guidelines/limits.

Orfom® D8 Depressant

Version 2.8

Revision Date 2026-09-21

Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances. Adequate ventilation to control airborne concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

- Respiratory protection : If ventilation or other engineering controls are not adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure, a supplied-air NIOSH approved respirator may be appropriate. If exposure to harmful levels of airborne material may occur, a NIOSH approved respirator that provides protection may be appropriate, such as:. Air-Purifying Respirator for Dusts and Mists. A positive pressure, air-supplying respirator may be appropriate if there is potential for uncontrolled release, aerosolization, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.
- Hand protection : The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
- Eye protection : Eye wash bottle with pure water.
- Skin and body protection : Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate:. Protective suit. Complete head face and neck protection. Rubber apron. Footwear protecting against chemicals. Safety shoes.
- Hygiene measures : When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

SECTION 9: Physical and chemical properties**Information on basic physical and chemical properties****Appearance**

- Form : liquid
- Physical state : liquid
- Color : clear, orange-red
- Odor : Mild

Orfom® D8 Depressant

Version 2.8

Revision Date 2026-09-21

Safety data

Flash point	: >93°C (>199°F)
Lower explosion limit	: No data available
Upper explosion limit	: No data available
Autoignition temperature	: >400°C (>752°F)
Molecular formula	: Mixture
Molecular weight	: Not applicable
pH	: 12.52
Boiling point/boiling range	: 106.4°C (223.5°F)
Vapor pressure	:
Relative density	: 1.3106 at 16 °C (61 °F)
Density	: 1.3478 g/cm3 at 16°C (60°F)
Water solubility	: 260,000 MG/L
Partition coefficient: n-octanol/water	: Pow: 398 log Pow: 2.6
Viscosity, kinematic	: 5.44 cSt at 21.1°C (70.0°F)
Relative vapor density	: 1 (Air = 1.0)
Evaporation rate	: 1
Percent volatile	: 60 %
Oxidizing potential	: Note: The substance or mixture is not classified as oxidizing.

SECTION 10: Stability and reactivity

Reactivity : Stable under recommended storage conditions.

Chemical stability : This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

Possibility of hazardous reactions

Conditions to avoid : No data available.

Materials to avoid : Incompatible with strong acids and oxidizing agents. Direct

Orfom® D8 Depressant

Version 2.8

Revision Date 2026-09-21

Hazardous decomposition products : contact with acids could release H₂S and CS₂..
Hydrogen Sulfide
Carbon Disulfide

Other data : No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

Orfom® D8 Depressant
Acute oral toxicity : No data available

Orfom® D8 Depressant
Acute inhalation toxicity : No data available

Orfom® D8 Depressant
Acute dermal toxicity : No data available

Orfom® D8 Depressant
Skin irritation : Extremely corrosive and destructive to tissue.

Orfom® D8 Depressant
Eye irritation : May cause irreversible eye damage.

Orfom® D8 Depressant
Sensitization : No data available.

Orfom® D8 Depressant
Repeated dose toxicity : This information is not available.

Orfom® D8 Depressant
Genotoxicity in vitro : Test Type: Ames test
Test system: Salmonella typhimurium
Metabolic activation: with and without metabolic activation
Method: OECD Test Guideline 471
Result: negative

Orfom® D8 Depressant
Genotoxicity in vivo : Remarks: No data available

Orfom® D8 Depressant
Reproductive toxicity : This information is not available.

Orfom® D8 Depressant
Developmental Toxicity : This information is not available.

Orfom® D8 Depressant
Aspiration toxicity : May be harmful if swallowed and enters airways.

Orfom® D8 Depressant

Orfom® D8 Depressant

Version 2.8

Revision Date 2026-09-21

Further information : No data available.
Solvents may degrease the skin.

SECTION 12: Ecological information**Ecotoxicity effects**

Toxicity to fish : LC50: 64.69 mg/l
Exposure time: 96 h
Species: Danio rerio (Zebra Fish)
semi-static test Method: OECD Test Guideline 203

Toxicity to daphnia and other aquatic invertebrates : EC50: 35.46 mg/l
Exposure time: 48 h
Species: Daphnia magna (Water flea)
semi-static test Method: OECD Test Guideline 202

Biodegradability : No data available

Elimination information (persistence and degradability)

Mobility : No data available

Additional ecological information : No data available

Ecotoxicology Assessment**SECTION 13: Disposal considerations**

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product : The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

Contaminated packaging : Empty remaining contents. Do not clean with acids. Never neutralize with the following products: acids. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.
Empty remaining contents. Dispose of as unused product. Do not re-use empty containers.

SECTION 14: Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Orfom® D8 Depressant

Version 2.8

Revision Date 2026-09-21

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.
